

CONTENTS Volume 11, Number 4, 2016

- 491** Progress with air quality management in the 60 years since the UK Clean Air Act, 1956. Lessons, failures, challenges and opportunities
J.W.S. Longhurst et al.
- 500** Air pollution biological effects in children living in Lecce (Italy) by buccal micronucleus cytome assay (the MAPEC_LIFE study)
A. De Donno et al.
- 511** From emission to immission: the way to pertinent evaluation of transport-related health and environmental impacts
J-P. Morin et al.
- 522** Human health risk assessment of airborne trace elements for human receptors in the vicinity of the Diamond Cement Factory, Volta region, Ghana
M.A. Addo et al.
- 537** Does emotional health influence susceptibility to the physiologic effects of air pollution on adults?
S. Cakmak et al.
- 546** Computational fluid dynamics as a tool to predict the air pollution dispersion in a neighborhood – a research project to improve the quality of life in cities
G. Triscone et al.
- 558** Prediction of hourly ozone concentrations with multiple regression and multilayer perceptron models
C. Capilla
- 566** Clustering approach applied on an artificial neural network model to predict PM₁₀ in mega cities of Mexico
E. Magaña-Villegas et al.
- 578** Influence of local and regional air pollution on atmospheric measurements in Ny-Ålesund
A. Dekhtyareva et al.
- 588** Mercury species in urban atmosphere
J. Lu et al.
- 595** Impacts of projected changes of emissions and climate on future U.S. air quality
Y. Zhang et al.
- 603** Sustainability in automotive transport: Russian and Italian experience concerning actual situation and intervention tools
G. Genon et al.
- 616** Setting up a mixed reality simulator for using teams of autonomous UAVS in air pollution monitoring
F. López Peña et al.
- 627** Biofiltration combined with non-thermal plasma for air pollution control: a preliminary investigation
M. Schiavon et al.
