

PLANT, SOIL AND ENVIRONMENT

Volume 62, No. 5

May 2016

CONTENTS

- Dhadli H.S., Brar B.S.:
Effect of long-term differential application of inorganic fertilizers
and manure on soil CO₂ emissions 195
- Yan R., Yang G., Chen B., Wang X., Yan Y., Xin X., Li L., Zhu X., Bai K.,
Rong Y., Hou L.:
Effects of livestock grazing on soil nitrogen mineralization
on Hulunber meadow steppe, China 202
- Rykaczewska K.:
The potato minituber production from microtubers in aeroponic culture 210
- Niedzielski P., Kozak L., Jakubowski K., Wachowiak W., Wybieralska J.:
Microwave induced plasma optical emission spectrometry in agricultural analysis 215
- Zhang S.X., Huang D.D., Yi X.Y., Zhang S., Yao R., Li C.G., Liang A., Zhang X.P.:
Rice yield corresponding to the seedling growth under supplemental green light
in mixed light-emitting diodes 222
- Klikocka H., Cybulska M., Barczak B., Narolski B., Szostak B., Kobińska A.,
Nowak A., Wójcik E.:
The effect of sulphur and nitrogen fertilization on grain yield
and technological quality of spring wheat 230
- Patkowska E., Błażewicz-Woźniak M., Konopiński M., Wach D.:
The effect of cover crops on the fungal and bacterial communities
in the soil under carrot cultivation 237
