

CONTENTS

Articles

- 421 Current status of coffee berry disease (*Colletotrichum kahawae* Waller & Bridge) in Ethiopia
Kumlachew Alemu, Girma Adugna, Fikre Lemessa and Diriba Muleta
- 434 *In silico* analysis of microRNA binding to the genome of Beet curly top Iran virus in tomato
Fahimeh Amirnia, Omid Eini and Davoud Koolivand
- 445 Spatial and temporal variations in contamination of mycotoxins in sub-humid, semi-arid areas of Eastern Central Tanzania
Kija Steven Magembe, Maulid Walad Mwatawala and Delphina Peter Mamiro
- 456 Evaluation of isolates of *Trichoderma*, *Pseudomonas* and *Bacillus* species as treatment for the control of post-harvest fungal rot disease of yam (*Dioscorea* spp.)
V. O. Dania, O. O. Fadina, M. Ayodele and P. Lava Kumar
- 471 Biological control of *Fusarium oxysporum* f. sp. *radicis-cucumerinum* by some *Trichoderma harzianum* isolates
Kaveh Javanshir Javid, Safarali Mahdian, Keivan Behboudi and Hamidreza Alizadeh
- 485 *Ex vivo* analyses of formulated bio-elicitors from a phytopathogen in the improvement of innate immunity in host
Nilanjan Chakraborty and Krishnendu Acharya
- 507 Biological spectrum of *Trichoderma harzianum* Rifai isolates to control fungal diseases of tomato (*Solanum lycopersicon* L.)
Satish K. Sain and Abhay K. Pandey
- 522 Efficacy of certain chemical compounds on common bean rust disease
Mansour M. El-Fawy and Kamal A. M. Abo-Elyousr
- 533 Genetic diversity, mating types and phylogenetic analysis of Indian races of *Fusarium oxysporum* f. sp. *ciceris* from chickpea
Prem Lal Kashyap, Shalini Rai, Sudheer Kumar and Alok Kumar Srivastava
- 554 Antifungal activity of the dill (*Anethum graveolens* L.) seed essential oil against strawberry anthracnose under *in vitro* and *in vivo* conditions
Kaivan Karimi, Mahdi Arzanlou and Ilaria Pertot
- 567 Identification of fungal pathogens associated with grapevine trunk using fluorescent-labelled ribosomal DNA probe
Mónica Fernández-González and Pedro Miguel Izquierdo Cañas
- 575 Suppression of sugar beet damping-off caused by *Rhizoctonia solani* using bacterial and fungal antagonists
Amer F. Mahmoud
- 586 Achieving improved control of foliar diseases of sesame (*Sesamum indicum* L.) intercropped with maize (*Zea mays* L.) through foliar spray of plant extracts
M. Jimoh, O. A. Enikuomihin, C. G. Afolabi, V. I. O. Olowe and A. Egbontan
