

Volume 80 Issue 6  
December 2015

- Accelerating the growth and increasing the nutritional value of chard  
(*Beta vulgaris* L. var. *cicla*) by applying yellow coloured filters  
F. Casierra-Posada E. Zapata-Casierra M.M. Blanke › 263
- Development of a real-time irrigation control system considering transpiration,  
substrate electrical conductivity, and drainage rate of nutrient solutions in soilless  
culture of paprika (*Capsicum annuum* L.)  
J.H. Shin J.E. Son › 271
- Trinexapac-ethyl modifies plant architecture of ornamental pepper  
S. Sever Mutlu N. Kurtulan › 280
- Physiological responses and quality attributes of Jiashi muskmelon (Cucurbitaceae,  
*Cucumis melo* L.) following postharvest hydrogen peroxide treatment during storage  
G. Chen J. Chen Z. Feng X. Mao D. Guo › 288
- Effect of interstocks on the photosynthetic characteristics and carbon distribution  
of young apple trees during the vigorous growth period of shoots  
Y.Q. Zhou S.J. Qin X.X. Ma J.E. Zhang P. Zhou M. Sun B.S. Wang H.F. Zhou D.G. Lyu › 296
- Structural, physiological and biochemical responses of *Pyrus calleryana*  
offspring to salt stress  
X. Li W. Dong J. Lin Z. Wang Q. Yang Y. Chang Z. Zhang › 306
- The physiology of *Curcuma alismatifolia* Gagnep. as a basis for the improvement  
of ornamental production  
S. Ruamrungsri › 316
