

Experimental interactions between clay minerals and bacteria: A review Barbara MUELLER	799
Composition and spatial distribution of soil mesofauna along an elevation gradient on the north slope of the Changbai Mountains, China JIANG Yunfeng, YIN Xiuqin and WANG Fubin	811
Using DGT to assess cadmium bioavailability to ryegrass as influenced by soil properties SONG Ningning, WANG Fangli, MA Yibing and TANG Shirong	825
Leaf expansion and transpiration responses of millet species to soil water deficit Mahjoubeh ESMAEILZADE-MORIDANI, Behnam KAMKAR, Serollah GALESHI, Farshid GHADERI-FAR and Jaime A. TEIXEIRA DA SILVA	834
Responses of soil nematode abundance and diversity to long-term crop rotations in tropical China ZHONG Shuang, ZENG Huicai and JIN Zhiqiang	844
Effects of pits and mounds following windthrow events on soil features and greenhouse gas fluxes in a temperate forest Yahya KOOCH, Sakineh Mollaei DARABI and Seyed Mohsen HOSSEINI	853
Soil microbiological and biochemical properties as affected by different long-term banana-based rotations in the tropics ZHONG Shuang, ZENG Huicai and JIN Zhiqiang	868
Concentrations of heavy metals in suburban horticultural soils and their uptake by <i>Artemisia selengensis</i> CUI Xu, SUN Xulei, HU Pengjie, YUAN Cheng, LUO Yongming, WU Longhua and Peter CHRISTIE	878
Assessment, composition and possible source of organochlorine pesticides in surface soils from Ürümqi, China CHEN Min, CHEN Li and HUANG Ping	888
Heavy metal contamination of agricultural soils in Taiyuan, China LIU Yong, WANG Huifeng, LI Xiaoting and LI Jinchang	901
Effect of deficit irrigation on the growth, water use characteristics and yield of cotton in arid Northwest China YANG Chuanjie, LUO Yi, SUN Lin and WU Na	910
