

(Abstracted/Indexed in: AGI's Bibliography and Index of Geology; Biological Abstracts; Biosis; Bulletin Signalétique; Chemical Abstracts/CAS; Current Contents/Agriculture, Biology & Environmental Sciences; Elsevier BIOBASE/Current Awareness in Biological Sciences; Environmental Periodicals Bibliography; Embiology; GEOBASE; Irrigation, Drainage Abstracts; PASCAL; Science Citation Index; SciSearch; Soils and Fertilizers). Also covered in the abstract and citation database Scopus®. Full text available on ScienceDirect®.

Variable indicators for optimum wavelength selection in diffuse reflectance spectroscopy of soils M.C. Sarathjith, B.S. Das, S.P. Wani and K.L. Sahrawat	1
Biochar-induced N ₂ O emission reductions after field incorporation in a loam soil N. Ameloot, P. Maenhout, S. De Neve and S. Sleutel	10
Sewage sludge biochar: Nutrient composition and its effect on the leaching of soil nutrients H. Yuan, T. Lu, Y. Wang, Y. Chen and T. Lei	17
Testing infiltration run effects on the estimated water transmission properties of a sandy-loam soil V. Alagna, V. Bagarello, S. Di Prima, G. Giordano and M. Iovino	24
Unexpected stimulation of CH ₄ emissions under continuous no-tillage system in mono-rice paddy soils during cultivation S.Y. Kim, J. Gutierrez and P.J. Kim	34
Towards an unbiased method for quantifying treatment effects on soil carbon in long-term experiments considering initial within-field variation C. Poeplau, M.A. Bolinder and T. Kätterer	41
The use of X-ray tomography in defining the spatial distribution of barite in the fluvially derived palaeosols of Vaalputs, Northern Cape Province, South Africa C.E. Clarke, T.O. Majodina, A. du Plessis and M.A.G. Andreoli	48
Identifying sources of soil landscape complexity with spatial adjacency graphs J.D. Phillips	58
Retrieving pedologist's mental model from existing soil map and comparing data mining tools for refining a larger area map under similar environmental conditions in Southeastern Brazil S.H.G. Silva, M.D.d. Menezes, P.R. Owens and N. Curi	65
Rapid weathering processes of a 120-year-old chronosequence in the Hailuoguo Glacier foreland, Mt. Gongga, SW China J. Zhou, H. Bing, Y. Wu, Z. Yang, J. Wang, H. Sun, J. Luo and J. Liang	78
Moisture insensitive prediction of soil properties from VNIR reflectance spectra based on external parameter orthogonalization N.K. Wijewardane, Y. Ge and C.L.S. Morgan	92
Effects of a hydrogel on the cambic chernozem soil's hydrophysic indicators and plant morphophysiological parameters D.C. Galeş, L.C. Trincă, A. Cazacu, C.A. Peptu and G. Jităreanu	102
Stand scale variability of topsoil organic matter composition in a high-elevation Norway spruce forest ecosystem S. Spielvogel, J. Prietzel and I. Kögel-Knabner	112

(continued from back cover)

An heuristic uncertainty directed field sampling design for digital soil mapping S.-J. Zhang, A.-X. Zhu, J. Liu, L. Yang, C.-Z. Qin and Y.-M. An	123
Effects of selected process conditions on the stability of hydrochar in low-carbon sandy soil M. Schulze, J. Mumme, A. Funke and J. Kern	137
Strategic tillage on a Grey Vertosol after fifteen years of no-till management had no short-term impact on soil properties and agronomic productivity H. Liu, M. Crawford, L.C. Carvalhais, Y.P. Dang, P.G. Dennis and P.M. Schenk	146
Soil physical quality response to sugarcane expansion in Brazil M.R. Cherubin, D.L. Karlen, A.L.C. Franco, C.A. Tormena, C.E.P. Cerri, C.A. Davies and C.C. Cerri	156
Assessment of the measures for the extraction or fixation of radiocesium in soil D. Parajuli, Y. Suzuki, M. Sato, A. Takahashi, H. Tanaka and T. Kawamoto	169
Determination of rice root density at the field level using visible and near-infrared reflectance spectroscopy S. Xu, X. Shi, M. Wang and Y. Zhao	174
Long-term effects of olive mill pomace co-compost on wettability and soil quality in olive groves V. Aranda, J. Calero, I. Plaza and A. Ontiveros-Ortega	185
Relict soil evidence for profound quaternary aridification of the Atacama Desert, Chile A. Ebeling, E. Oerter, J.W. Valley and R. Amundson	196
Quantification of soil carbon from bulk soil samples to predict the aggregate-carbon fractions within using near- and mid-infrared spectroscopic techniques M.P.N.K. Henaka Arachchi, D.J. Field and A.B. McBratney	207
Field-based soil-texture estimates could replace laboratory analysis C. Vos, A. Don, R. Prietz, A. Heidkamp and A. Freibauer	215
Soil apparent conductivity measurements for planning and analysis of agricultural experiments: A case study from Western-Thailand S. Rudolph, C. Wongleecharoen, R.M. Lark, B.P. Marchant, S. Garré, M. Herbst, H. Vereecken and L. Weihermüller . . .	220
