

C O N T E N T S

Publisher's Note

Farewell to Dr. Roger Arditi, and Welcome to Dr. Paula Campanello v

Review Article

Effects of high density on spacing behaviour and reproduction in *Akodon azarae*: A fencing experiment
B. Ávila, F. Bonatto, J. Priotto and A.R. Steinmann 67

Research Articles

Low habitat overlap at landscape scale between wild camelids and feral donkeys in the Chilean desert
J.E. Malo, B.A. González, C. Mata, A. Vielma, D.S. Donoso, N. Fuentes and C.F. Estades 1

Interspecific variation in resistance of two host tree species to spruce budworm
A. Fuentealba and É. Bauce 10

Using species abundance distribution models and diversity indices for biogeographical analyses
S. Fattorini, F. Rigal, P. Cardoso and P.A.V. Borges 21

Habitat niche relationships within an assemblage of ungulates in Bardia National Park, Nepal
K.P. Pokharel and I. Storch 29

Influence of fine-scale habitat structure on nest-site occupancy, laying date and clutch size in Blue Tits
Cyanistes caeruleus
S.M. Amininasab, O. Vedder, E. Schut, B. de Jong, M.J.L. Magrath, P. Korsten and J. Komdeur 37

Relative importance of perch and facilitative effects on nucleation in tropical woodland in Malawi
T. Fujita 45

How much *Dillenia indica* seed predation occurs from Asian elephant dung?
N. Sekar, X. Giam, N.P. Sharma and R. Sukumar 53

Pre-adaptation or genetic shift after introduction in the invasive species *Impatiens glandulifera*?
E.M. Elst, K.P. Acharya, P.A. Dar, Z.A. Reshi, J. Tufto, I. Nijs and B.J. Graae 60

CONTENTS—continued from outside back cover

Mixing effects on litter decomposition rates in a young tree diversity experiment <i>N.N. Setiawan, M. Vanhellemont, A. De Schrijver, S. Schelfhout, L. Baeten and K. Verheyen</i>	79
The relevance of morphology for habitat use and locomotion in two species of wall lizards <i>V. Gomes, M.A. Carretero and A. Kaliontzopoulou</i>	87
Bamboo thickets alter the demographic structure of <i>Euterpe edulis</i> population: A keystone, threatened palm species of the Atlantic forest <i>D.C. Rother, R.R. Rodrigues and M.A. Pizo</i>	96
Land use and biodiversity patterns of the herpetofauna: The role of olive groves <i>A.J. Carpio, J. Oteros, F.S. Tortosa and J. Guerrero-Casado</i>	103
Endophytic benefit for a competitive host is neutralized by increasing ratios of infected plants <i>L. Wu, A. Ren, Y. Jing, Y. Zhou, X. Wang, J. Qin and Y. Gao</i>	112
Shrub control by browsing: Targeting adult plants <i>L. da Silveira Pontes, D. Magda, B. Gleizes and C. Agreil</i>	121
Habitat fragmentation influences nestling growth in Mediterranean blue and great tits <i>J. Bueno-Enciso, E.S. Ferrer, R. Barrientos, E. Serrano-Davies and J.J. Sanz</i>	129
Indirect facilitation becomes stronger with seedling age in a degraded seasonally dry forest <i>R.C. Torres and D. Renison</i>	138
Short Communication	
Fungal-mediated mortality explains the different effects of dung leachates on the germination response of grazing increaser and decreaser species <i>C.P. Carmona, E. Navarro and B. Peco</i>	74
