REVIEW PAPER

The influence of arabinoxylans on the quality of grain industry products

J. Rosicka-Kaczmarek · A. Komisarzyk · E. Nebesny · B. Makowski 295

ORIGINAL PAPERS

Hypolipidemic mechanism of gypenosides via inhibition of pancreatic lipase and reduction in cholesterol micellar solubility

J. Su · H. Wang · C. Ma · C. Liu · M.T. Rahman · C. Gao · R. Nie 305

Discrimination and investigation of inhibitory patterns of flavonoids and phenolic acids on heterocyclic amine formation in chemical model systems by UPLC-MS profiling and chemometrics

M. Zeng · Y. Li · Z. He · F. Qin · G. Tao · S. Zhang · Y. Gao · J. Chen 313

Comparison of fermentation results and quality of the agricultural distillates obtained by application of commercial amyolytic preparations and cereal malts

M. Balcerek · K. Pielech-Przybylska · E. Strąk · P. Patelski · U. Dziekońska 321

Functional properties of water kefir and its use as a hydrocolloid in baking

M. Hermann · K. Kronseider · J. Sorgend · T. Ua-Arak · R.F. Vogel 337

Effects of hypochlorite as a disinfectant for hydroponic systems on accumulations of chlorate and phytochemical compounds in tomatoes

D. Dannehl · I. Schuch · Y. Gao · S. Cordiner · U. Schmidt 345

Importance of low substrate arsenic content in mushroom cultivation and safety of final food product

M. Mleczek · P. Niedzielski · M. Siwulski · P. Rzymiski · M. Gąsecka · P. Goliński · L. Kozak · T. Kozubik 355

Exploring enzyme and microbial technology for the preparation of green table olives

A. De Leonardis · B. Testa · V. Macciola · S.J. Lombardi · M. Iorizzo 363

Impact of harvest times on the quality characteristics of oils recovered from different safflower (*Carthamus tinctorius*) cultivars sown in spring and autumn

B. Cosge Senkal · M. Kiralan · M.F. Ramadan 371

Oxalate, magnesium and calcium content in selected kinds of tea: impact on human health

J. Brzezicha-Cirocka · M. Grembecka · P. Szefer 383

Digestion susceptibility of seed globulins isolated from different lupin species

J. Czubiński · A. Siger · E. Lampart-Szczapa 391

Discrimination based on changes in the physical properties of fenugreek (*Trigonella foenum-graecum* L.) seeds subjected to various cultivation conditions

P. Zapotoczny · K. Żuk-Gołaszewska · E. Ropelewska 405

The effect of high pressure on formation of volatile amines in minced meat of cod (*Gadus morhua*)

E. Malinowska-Parńczyk · I. Kołodziejaska 415

Changes in minimally processed apple tissue with storage time and temperature: mechanical-acoustic analysis and rheological investigation

T. Roversi · L. Piazza 421

Thiobarbituric acid reactive substances in flavored phytosterol-enriched drinking yogurts during storage: formation and matrix interferences

C.A. Semeniuc · M. Mandrioli · M.T. Rodriguez-Estrada · S. Muste · G. Lercker 431

Discrimination of rapeseeds (*Brassica napus* L.) based on the content of erucic acid by ¹H NMR

J. Han · C. Lu · Y. Li · Z. Deng · B. Fu · Z. Geng 441

Proteomic profile of coconuts

J. Huang · X. Liu · Q. Lan · X. Lai · Z. Luo · G. Yang 449
