

PLANT, SOIL AND ENVIRONMENT

Volume 62, No. 2

February 2016

CONTENTS

- Hejnák V., Hnilíčková H., Hnilička E., Andr J.:
Gas exchange and *Triticum* sp. with different ploidy in relation to irradiance 47
- Dai Z.M., Xu T.S., Li X.G., Zhang H., Li Y., Zhang X.L.:
Effect of different water supply on accumulation of high molecular weight glutenin
subunits and glutenin macropolymers in near-isogenic wheat lines 53
- Kunz Ch., Sturm D.J., Varnholt D., Walker F., Gerhards R.:
Allelopathic effects and weed suppressive ability of cover crops 60
- Buczek J., Jarecki W., Bobrecka-Jamro D.:
The response of population and hybrid wheat to selected agro-environmental factors 67
- Stehlíková I., Madaras M., Lipavský J., Šimon T.:
Study on some soil quality changes obtained from long-term experiments 74
- Liu L.T., Sun H.C., Chen J., Zhang Y.J., Wang X.D., Li D.X., Li C.D.:
Cotton seedling plants adapted to cadmium stress by enhanced activities
of protective enzymes 80
- Hamouz K., Pazderů K., Lachman J., Čepl J., Kotíková Z.:
Effect of cultivar, flesh colour, locality and year on carotenoid content in potato tubers 86
- Zhang Y.-J., Xie M., Peng D.-L., Zhao J.-J., Zhang Z.-R.:
Dynamics of microbial population size in rhizosphere soil of Monsanto's *Cry1Ac* cotton 92
