(Full texts are incorporated in CJELSEVIER, a file in the Chemical Journals Online database available on STN International;  
Abstracted, indexed in: Aluminium Abstracts; Anal. Abstr.; Biol. Abstr.; BIOSIS; Chem. Abstr.;  
Curr. Contents Phys. Chem. Earth Sci.; Engineered Materials Abstracts; Excerpta Medica; Index Med.; Life Sci.;  
Mass Spectrum. Bull.; Material Business Alerts; Metals Abstracts; Sci. Citation Index)

A test of traditional diversity measures and taxonomic distinctness indices on benthic diatoms of soda pans in the Carpathian basin C. Stenger-Kovács (Veszprém, Hungary), É. Hajnal (Székesfehérvár, Hungary), E. Lengyel (Veszprém, Hungary), K. Buczkó (Budapest, Hungary) and J. Padisák (Veszprém, Hungary).....	1
Sensitivity of correlation structure of class- and landscape-level metrics in three diverse regions Y. Liu (Wuhan, China), X. Wei (Nanchang, China and China), P. Li and Q. Li (Wuhan, China).....	9
On using landscape metrics for landscape similarity search J. Niesterowicz and T.F. Stepinski (Cincinnati, OH, USA) .....	20
Combined eco-morphological functional groups are reliable indicators of colonisation processes of benthic diatom assemblages in a lowland stream V. B-Béres, Á. Lukács, P. Török, Z. Kókai, Z. Novák, E. T-Krasznai, B. Tóthmérész and I. Bácsi (Debrecen, Hungary) .....	31
Determination of tipping points for aquatic plants and water quality parameters in fish pond systems: A multi-year approach M. Vanacker, A. Wezel (Lyon, France), F. Arthaud (Chambéry, France), M. Guérin and J. Robin (Lyon, France) .....	39
Mapping tree species diversity of a tropical montane forest by unsupervised clustering of airborne imaging spectroscopy data E. Schäfer, J. Heiskanen, V. Heikinheimo and P. Pellikka (Helsinki, Finland).....	49
Ultra- and microplankton assemblages as indicators of trophic status in a Mediterranean lagoon A. Dhib (France and Tunisie, France), M. Denis, A. Barani (Marseille, France), S. Turki (Tunisie, France) and L. Aleya (France).....	59
Investigation of general indicators influencing on forest fire and its susceptibility modeling using different data mining techniques Z.S. Pourtaghi (Yazd, Iran), H.R. Pourghasemi (Shiraz, Iran), R. Aretano and T. Semeraro (Lecce, Italy) .....	72
Macroinvertebrate and diatom communities as indicators for the biological assessment of river Picentino (Campania, Italy) A. Giorgio, S. De Bonis and M. Guida (Naples, Italy).....	85
A multi-scale looping approach to predict spatially dynamic patterns of functional species richness in changing landscapes R. Bastos (Vila Real, Portugal), M. D'Amen (Lausanne, Switzerland), J. Vicente (Porto, Portugal), M. Santos (Vila Real, Portugal), H. Yu (Amsterdam, The Netherlands and Beijing, China), D. Eitelberg (Amsterdam, The Netherlands), J. Gonçalves, E. Civantos, J. Honrado (Porto, Portugal) and J.A. Cabral (Vila Real, Portugal).....	92
Remote sensing for lake research and monitoring – Recent advances K. Dörnhöfer and N. Oppelt (Kiel, Germany) .....	105
Assessment of sustainable livelihoods of different farmers in hilly red soil erosion areas of southern China C. Wang (Fuzhou, PR China), Y. Zhang (USA), Y. Yang (Fuzhou, PR China), Q. Yang (College Park, MD, USA), J. Kush, Y. Xu (USA) and L. Xu (Canada).....	123
Development of a benthic macroinvertebrate multimetric index (MMI) for Neotropical Savanna headwater streams D.R. Macedo (Belo Horizonte, Brazil), R.M. Hughes (Corvallis, OR, USA), W.R. Ferreira, K.R. Firmiano, D.R.O. Silva (Belo Horizonte, Brazil), R. Ligeiro (Belém, Brazil), P.R. Kaufmann (Corvallis, OR, USA) and M. Callisto (Belo Horizonte, Brazil).....	132

Chemical and botanical indicators of groundwater inflow to <i>Sphagnum</i> -dominated peatlands M. Larocque, M. Ferlatte, S. Pellerin (Montréal, Canada), V. Cloutier (Amos, Canada), J.L. Munger (Montréal, Canada), C. Paniconi (Québec, Canada) and A. Quillet (Montréal, Canada) . . . . .	142
Use of body-size distinctness of biofilm-dwelling protozoa for marine bioassessment G. Xu and H. Xu (Qingdao, China) . . . . .	152
A weighted aggregation and closeness approach to measuring the compactness of landscape with multiple parts' J. Zhou (Guangzhou, PR China), N. Xiao (Columbus, OH, USA), L. Liu (Guangzhou, PR China and Cincinnati, OH, USA) and Q. Li (Guangzhou, PR China) . . . . .	158
Temporal dynamics of benthic macroinvertebrate communities and their response to elevated specific conductance in Appalachian coalfield headwater streams E.A. Boehme, C.E. Zipper, S.H. Schoenholtz (Blacksburg, VA, USA), D.J. Soucek (Champaign, IL, USA) and A.J. Timpano (Blacksburg, VA, USA) . . . . .	171
An indicator framework for assessing progress in land and marine planning in Colombia and Cuba C.M. Botero (Santa Marta, Colombia), L.M. Fanning (Halifax, Canada), C. Milanes and J.A. Planas (Santiago de Cuba, Cuba) . . . . .	181
Guide of strategies for urban regeneration: A design-support tool for the Spanish context C. Mateo and A. Cuñat (Valencia, Spain) . . . . .	194
Predictive model of soil molecular microbial biomass W. Horrigue, S. Dequiedt, N. Chemidlin Prévost-Bouré (Dijon, France), C. Jolivet, N.P.A. Saby, D. Arrouays (Orleans, France), A. Bispo (Angers, France), P.-A. Maron and L. Ranjard (Dijon, France) . . . . .	203
Optimization and accuracy of faecal pellet count estimates of population size: The case of European rabbits in extensive breeding nuclei C. Rouco (Dunedin, New Zealand, Ciudad Real, Spain and Córdoba, Spain), S. Santoro (Seville, Spain), M. Delibes-Mateos (Ciudad Real, Spain, Vairão, Portugal and Córdoba, Spain) and R. Villafuerte (Córdoba, Spain) . . . . .	212
Morphology-based functional groups as effective indicators of phytoplankton dynamics in a tropical cyanobacteria-dominated transitional river-reservoir system L.M. Rangel (Rio de Janeiro, Brazil), M.C.S. Soares, R. Paiva (Brazil) and L.H.S. Silva (Rio de Janeiro, Brazil) . . . . .	217
Relative availability of inorganic N-pools shifts under land use change: An unexplored variable in soil carbon dynamics P. Srivastava, P.K. Singh, R. Singh, R. Bhadouria, D.K. Singh, S. Singh, T. Afreen (Varanasi, India), S. Tripathi (New Delhi, India), P. Singh, H. Singh and A.S. Raghubanshi (Varanasi, India) . . . . .	228
Crowdsourcing indicators for cultural ecosystem services: A geographically weighted approach for mountain landscapes P. Tenerelli (Grenoble, France), U. Demšar (St Andrews, UK) and S. Luque (Grenoble, France and St Andrews, UK) . . . . .	237
Carbon and nitrogen footprint of double rice production in Southern China J.-F. Xue, C. Pu, S.-L. Liu, X. Zhao, R. Zhang, F. Chen (Beijing, China), X.-P. Xiao (Changsha, China) and H.-L. Zhang (Beijing, China) . . . . .	249
Assessing the suitability of five benthic indices for environmental health assessment in a large subtropical South American estuary K.M. Brauko (Brazil and Florianópolis, Brazil), P. Muniz (Montevideo, Uruguay), C. de Castro Martins and P. da Cunha Lana (Brazil) . . . . .	258
Cover as a simple predictor of biomass for two shrubs in Tibet L. Zhang, G. Cui, W. Shen (Beijing, China) and X. Liu (Jiujiang, China) . . . . .	266
Plant functional diversity mediates the effects of vegetation and soil properties on community-level plant nitrogen use in the restoration of semiarid sandy grassland X. Zuo, J. Zhang, P. Lv, X. Zhou, Y. Li, Y. Luo, Y. Luo, J. Lian and X. Yue (Lanzhou, China) . . . . .	272
Land surface phenology as an indicator of biodiversity patterns A. Viña, W. Liu (East Lansing, MI, USA), S. Zhou, J. Huang (Wenchuan, China) and J. Liu (East Lansing, MI, USA) . . . . .	281
What should be evaluated from a manager's perspective? Developing a salient protected area effectiveness evaluation system for managers and scientists in Spain D. Rodríguez-Rodríguez (Devon, UK and Málaga, Spain) and J. Martínez-Vega (Madrid, Spain) . . . . .	289
Assessing of tolerance to metallic and saline stresses in the halophyte <i>Suaeda fruticosa</i> : The indicator role of antioxidative enzymes I. Bankaji (Tunisia), I. Caçador (Campo Grande, Portugal) and N. Sleimi (Tunisia) . . . . .	297
Macrophytes in boreal streams: Characterizing and predicting native occurrence and abundance to assess human impact J. Rääpysjärvi (Oulu, Finland), H. Hämäläinen (Finland) and J. Aroviita (Oulu, Finland) . . . . .	309
Assessing regulating and provisioning ecosystem services in a contrasting tropical forest landscape M. Alamgir (Cairns, Australia and Chittagong, Bangladesh), S.M. Turton, C.J. Macgregor (Cairns, Australia) and P.L. Pert (Cairns, Australia and Earlville, Australia) . . . . .	319
Developing indices of temporal dispersion and continuity to map natural vegetation B. Qiu, Z. Liu (Fuzhou, China), Z. Tang (Lincoln, NE, USA) and C. Chen (Fuzhou, China) . . . . .	335
