

# TRENDS IN FOOD SCIENCE & TECHNOLOGY

Volume 49

## REVIEWS

- Data-driven recipe completion using machine learning methods** 1  
by Marlies De Clercq, Michiel Stock, Bernard De Baets and Willem Waegeman
- Are risk or benefit perceptions more important for public acceptance of innovative food technologies: A meta-analysis** 14  
by Angela Bearth and Michael Siegrist
- Effect of processing on conformational changes of food proteins related to allergenicity** 24  
by Toheder Rahaman, Todor Vasiljevic and Lata Ramchandran
- Improving functionality of chocolate: A review on probiotic, prebiotic, and/or synbiotic characteristics** 35  
by Nevzat Konar, Omer Said Toker, Sirin Oba and Osman Sagdic
- Cross-flow microfluidic emulsification from a food perspective** 51  
by Kelly Muijlwijk, Claire Berton-Carabin and Karin Schroën
- Technological possibilities to prevent and suppress primary gushing of beer** 64  
by Michaela Postulkova, David Riveros-Galan, Karla Cordova-Agiular, Kamila Zitkova, Hubert Verachtert, Guy Derdelinckx, Pavel Dostalek, Marek C. Ruzicka and Tomas Branyik
- Lutein and zeaxanthin: Production technology, bioavailability, mechanisms of action, visual function, and health claim status** 74  
by Ifeanyi D. Nwachukwu, Chibuiké C. Udenigwe and Rotimi E. Aluko

<b>The international scenario of patents concerning isoflavones</b> by Marina Cardoso Nemitz, Débora Fretes Argenta, Letícia Scherer Koester, Valquíria Linck Bassani, Gilsane Lino von Poser and Helder Ferreira Teixeira	85
<b>Green alternative methods for the extraction of antioxidant bioactive compounds from winery wastes and by-products: A review</b> by Francisco J. Barba, Zhenzhou Zhu, Mohamed Koubaa, Anderson S. Sant'Ana and Vibeke Orlien	96
<b>Critical review on challenge tests to demonstrate decontamination of polyolefins intended for food contact applications</b> by Stella Palkopoulou, Catherine Joly, Alexandre Feigenbaum, Constantine D. Papaspyrides and Patrice Dole	110
<b>Buckwheat starch: Structures, properties, and applications</b> by Fan Zhu	121
<b>Chemical composition, health effects, and uses of water caltrop</b> by Fan Zhu	136
<b>COMMENTARY</b>	
<b>Nutritional strategies and personalized diet in autism-choice or necessity?</b> by Joanna Kałużna-Czaplińska and Jagoda Józwik-Pruska	45
