

CONTENTS

Research Reports

- Prebiotics and probiotics used alone or in combination and effects on pullet growth and intestinal microbiology**
D. Hahn-Didde and S. E. Purdum 1
- The effect of feeder space access and crumble- or pellet-to-fine ratio on 38-day-old broiler performance**
M. E. Lemons and J. S. Moritz 12
- Effects of modest improvements in pellet quality and experiment pen size on broiler chicken performance**
B. G. Glover, K. L. Foltz, I. Holásková, and J. S. Moritz 21
- Effect of *Bacillus subtilis* supplementation in low energy diets on broiler performance**
D. Harrington, M. Sims, and A. B. Kehlet 29
- Effect of β -mannanase inclusion on growth performance, ileal digestible energy, and intestinal viscosity of male broilers fed a reduced-energy diet**
R. E. Latham, M. Williams, K. Smith, K. Stringfellow, S. Clemente, R. Brister, and J. T. Lee 40
- Comparison of conventional plating methods and Petrifilm™ for the recovery of aerobic bacteria and mold from hatchery fluff samples**
Claire A. Warren, Sylvia K. Weber, and Rocio Crespo 48
- Apparent ileal digestible tryptophan requirements of 22- to 42-day-old broiler chicks**
Bo Wang, Zhizhi Min, and Jianmin Yuan 54
- Injury and death of various *Salmonella* serotypes due to acidic conditions**
N. A. Cox, K. E. Richardson, D. E. Cosby, M. E. Berrang, J. A. Cason, L. L. Rigsby, N. Holcombe, and L. DeRome 62
- Prevalence and clonal distribution of avian *Escherichia coli* isolates harboring increased serum survival (*iss*) gene**
Mahdi Askari Badouei, Patrick Joseph Blackall, Alireza Koochakzadeh, Hadi Haghbin Nazarpak, and Mohammad Amin Sepehri 67
- Economic cost-benefit analysis of the use of bacitracin methylene disalicylate in broilers affected with necrotic enteritis**
Gloria Chan, Alessia Guthrie, Paul Sockett, Jeff Wilson, Robert Moody, and Steven Clark 74
- Effect of the anatomical point of hanging and dripping time on water retention of chicken carcasses**
C. F. Guimaraes, E. T. Marsico, C. A. Lazaro, M. T. Q. M. Assis, A. M. P. Guimaraes, A. W. Hofmeister, S. B. Mano, and C. A. Conte-Junior 80

Chemical composition, amino acid digestibility, and true metabolizable energy of cowpeas as affected by roasting and extrusion processing treatments using the cecectomized rooster assay

F. Dos Anjos, M. Vazquez-Anon, E. S. Dierenfeld, C. M. Parsons, and M. Chimonyo 85

Effects of *Nigella sativa* on immune responses and pathogenesis of avian influenza (H9N2) virus in turkeys

Sajid Umar, Abdul Rehman, Muhammad Younus, Qamar-un-Nisa, Asif Ali, Muhammad Shahzad, Muhammad Ali Abdullah Shah, Muhammad Tanveer Munir, Hassan Bin Aslam, and Muhammad Yaqoob 95

Field Reports

Incidence of clostridial dermatitis (cellulitis) and factors for development of the disease in turkeys

Megan E. Lighty, François Elvinger, Robert D. Evans, Nammalwar Sriranganathan, Tanya LeRoith, and F. William Pierson 104

Natural concurrent infections associated with infectious laryngotracheitis in layer chickens

Rodrigo M. Couto, Juliana F. Vilarinho Braga, Sandra Y. M. Gomes, Mauricio Resende, Nelson R. S. Martins, and Roselene Ecco 113

Review Article

How to fulfill EU requirements to feed organic laying hens 100% organic ingredients

M. M. van Krimpen, F. Leenstra, V. Maurer, and M. Bestman 129
