

REVIEWS

- Production of bioactive peptides during soybean fermentation and their potential health benefits** by Samurailatpam Sanjukta and Amit Kumar Rai 1
- Data mining derived from food analyses using non-invasive/non-destructive analytical techniques; determination of food authenticity, quality & safety in tandem with computer science disciplines** by A.I. Ropodi, E.Z. Panagou and G.-J.E. Nychas 11
- Strategies for the discovery, identification and validation of milk protein-derived bioactive peptides** by Alice B. Nongonierma and Richard J. FitzGerald 26
- Marine bioactive compounds and health promoting perspectives; innovation pathways for drug discovery** by Hafiz Ansar Rasul Suleria, Glenda Gobe, Paul Masci and Simone A. Osborne 44
- Occurrence and levels of mycotoxins and their metabolites in human breast milk associated to dietary habits and other factors: A systematic literature review, 1984–2015** by Abha Cherkani-Hassani, Brahim Mojemmi and Nezha Mouane 56
- Mitigation strategies to reduce the impact of heterocyclic aromatic amines in proteinaceous foods** by Maia Meurillon and Erwan Engel 70

High throughput non-destructive assessment of quality and safety of packaged food products using phosphorescent oxygen sensors by Swagata Banerjee, Caroline Kelly, Joseph P. Kerry and Dmitri B. Papkovsky	85
Biotechnological, nutritional and therapeutic uses of <i>Pleurotus</i> spp. (Oyster mushroom) related with its chemical composition: A review on the past decade findings by Rúbia Carvalho Gomes Corrêa, Tatiane Brugnari, Adelar Bracht, Rosane Marina Peralta and Isabel C.F.R. Ferreira	103
Identification and quantification of oligomers as potential migrants in plastics food contact materials with a focus in polycondensates – A review by M. Hoppe, P. de Voogt and R. Franz	118
Protein and lipid oxidation in meat: A review with emphasis on high-pressure treatments by Claire Guyon, Anne Meynier and Marie de Lamballerie	131
Natural phytochemicals and probiotics as bioactive ingredients for functional foods: Extraction, biochemistry and protected-delivery technologies by Beatriz Vieira da Silva, João C.M. Barreira and M. Beatriz P.P. Oliveira	144
Food-grade particles for emulsion stabilization by Iris Tavernier, Wahyu Wijaya, Paul Van der Meeren, Koen Dewettinck and Ashok R. Patel	159
A review of the state-of-the-art in air filtration technologies as may be applied to cold storage warehouses by Jean-Pierre Brincat, Davide Sardella, Arianne Muscat, Stephen Decelis, Joseph N. Grima, Vasilis Valdramidis and Ruben Gatt	175
Osmotic dehydration in production of sustainable and healthy food by Agnieszka Ciurzyńska, Hanna Kowalska, Kinga Czajkowska and Andrzej Lenart	186
Anti-inflammatory potential of mushroom extracts and isolated metabolites by Oludemi Taofiq, Anabela Martins, Maria Filomena Barreiro and Isabel C.F.R. Ferreira	193
Food fraud: An exploratory study for measuring consumer perception towards mislabeled food products and influence on self-authentication intentions by Sylvain Charlebois, Anita Schwab, Raphael Henn and Christian W. Huck	211
Prioritizing research needs for analytical techniques suited for engineered nanomaterials in food by Khara D. Grieger, James Harrington and Ninell Mortensen	219
COMMENTARIES	
Has the global financial crisis had different effects on innovation performance in the agri-food sector by comparison to the rest of the economy? by Ferdaous Zouaghi and Mercedes Sánchez	230
New product failure: Five potential sources discussed by Garnt Dijksterhuis	243
New Nordic Cuisine: Is there another back to the future? – An informed viewpoint on NNC value drivers and market scenarios by Tino Bech-Larsen, Trine Mørk and Sussanne Kolle	249

BOOK REVIEW

Imaging with electromagnetic spectrum: Applications in food and agriculture by Kaveh Mollazade 262

CONFERENCE REPORT

Food Science Research and Innovation:- Delivering sustainable solutions to the global economy and society: Outcomes from the EFFoST Annual Meeting 2015, Athens, Greece by Ronan Gormley 254

CORRIGENDUM

Corrigendum to “The emerging application of ultrasound in lactose crystallisation” [Trends in Food Science & Technology 38/1 (2014) 47–59] by Mohammad H. Zamanipoor and Ricardo L. Mancera 264
