

CONTENTS

Reviews

- 44** Factors influencing quality variation in cocoa (*Theobroma cacao*) bean flavour profile – A review
J.E. KONGOR, M. HINNEH, D.V. DE WALLE, E.O. AFOAKWA, P. BOECKX, K. DEWETTINCK (Belgium, Ghana)
- 59** Tocopherols and tocotrienols in plants and their products: A review on methods of extraction, chromatographic separation, and detection
R.K. SAINI, Y.-S. KEUM (Republic of Korea)
- 71** Alternative disinfection methods to chlorine for use in the fresh-cut industry
A. MEIRELES, E. GIAOURIS, M. SIMÕES (Portugal, Greece)
- 136** An overview of microorganisms and factors contributing for the microbial stability of carbonated soft drinks
D.R.P. AZEREDO, V. ALVARENGA, A.S. SANT'ANA, A.U.O. SABAA SRUR (Brazil)

Research Articles

- 1** Comprehensive study of the phenolic composition of the edible parts of jambolan fruit (*Syzygium cumini* (L.) Skeels)
I.M.D.C. TAVARES, E.S. LAGO-VANZELA, L.P.G. REBELLO, A.M. RAMOS, S. GÓMEZ-ALONSO, E. GARCÍA-ROMERO, R. DA-SILVA, I. HERMOSÍN-GUTIÉRREZ (Brazil, Spain)
- 14** Changes in sensory characteristics and their relation with consumers' liking, wanting and sensory satisfaction: Using dietary fibre and lime flavour in *Stevia rebaudiana* sweetened fruit beverages
L.H. MIELBY, B.V. ANDERSEN, S. JENSEN, H. KILDEGAARD, A. KUZNETSOVA, N. EGGERS, P.B. BROCKHOFF, D.V. BYRNE (Denmark)
- 22** Peach juice processed by the ultrasound technology: Changes in its microstructure improve its physical properties and stability
M.L. ROJAS, T.S. LEITE, M. CRISTIANINI, I.D. ALVIM, P.E.D. AUGUSTO (Brazil)
- 34** Molecular migration in high-protein intermediate-moisture foods during the early stage of storage: Variations between dairy and soy proteins and effects on texture
N. LU, L. ZHANG, X. ZHANG, J. LI, T.P. LABUZA, P. ZHOU (PR China, USA)
- 53** Impact of crema on expected and actual espresso coffee experience
D. LABBE, J. SUDRE, V. DUGAS, B. FOLMER (Switzerland)
- 86** Metabolomics reveals the effect of garlic on antioxidant- and protease-activities during *Cheonggukjang* (fermented soybean paste) fermentation
D.-G. OH, Y.K. JANG, J.E. WOO, J.-S. KIM, C.H. LEE (Republic of Korea)

- 95** Improved thermal gelation of oat protein with the formation of controlled phase-separated networks using dextrin and carrageenan polysaccharides
T.V. Nieto Nieto, Y. Wang, L. Ozimek, L. Chen (Canada)
- 104** Proteomic study on the stability of proteins in bovine, camel, and caprine milk sera after processing
L. Zhang, S. Boeren, M. Smits, T. van Hooijdonk, J. Vervoort, K. Hettinga (The Netherlands)
- 112** Effect of anchovy (*Coilia mystus*) protein hydrolysate and its Maillard reaction product on combating memory-impairment in mice
G. Su, T. Zhao, Y. Zhao, D. Sun-Waterhouse, C. Qiu, P. Huang, M. Zhao (China)
- 121** Characterization of free, esterified and bound phenolics in custard apple (*Annona squamosa* L) fruit pulp by UPLC-ESI-MS/MS
R. Baskaran, D. Pullencheri, R. Somasundaram (India)
- 128** Dynamic characterization of red wine astringency: Case study with Uruguayan Tannat wines
L. Vidal, L. Antúnez, A. Giménez, K. Medina, E. Boido, G. Ares (Uruguay)
- 145** Effects of geographical origin, variety and farming system on the chemical markers and *in vitro* antioxidant capacity of Brazilian purple grape juices
T. Margraf, É.N.T. Santos, E.F. de Andrade, S.M. van Ruth, D. Granato (Brazil, Netherlands)
- 156** Thermal and light stabilities and antioxidant activity of carotenoids from tomatoes extracted using an ultrasound-assisted completely solvent-free method
P.L.G. Martins, V.V. de Rosso (Brazil)
- 165** Content of lutein in aqueous extracts of yerba mate (*Ilex paraguariensis* St. Hil)
T.F.F.d. Silveira, A.D. Meinhart, J.P. Coutinho, T.C.L. de Souza, E.C.E. Cunha, M.R. de Moraes, H.T. Godoy (Brazil)
- 172** Corrigendum to “Polysaccharides from raw and cooked chayote modulate macrophage function” [Food Res. Int. 81 (March 2016), 171–179]
V.C. Castro-Alves, M. Sansone, A.B. Sansone, J.R.O. do Nascimento (Brazil)
