

# Compost Science & Utilization

---

## CONTENTS

Volume 24 Number 3 2016

### ARTICLES

- Nitrogen Availability from Compost in High Tunnel Tomato Production  
*Kathleen Marshall, Susan Erich, Mark Hutton, Mark Hutchinson, and Ellen Mallory* 147
- Alkaline Amendment for the Enhancement of Compost Degradation for Polylactic Acid Biopolymer Products  
*Troy A. Hottle, Marisol Luna Agüero, Melissa M. Bilec, and Amy E. Landis* 159
- The Effects of Different Organic Wastes on Mineral Element Content in Organic Strawberry Cultivation  
*G. Balci, H. Demirsoy, and L. Demirsoy* 174
- Microbiological Features Associated with the Suppression of Fusarium Wilt of Lettuce Studied by Applying a Single Selected Compost  
*Selma Franceschini, Massimo Pugliese, Angelo Garibaldi, and Maria Lodovica Gullino* 182
- Quality Assessment of Three Industry-Derived Organic Amendments for Agricultural Use  
*Rosa Ana Pérez, Consuelo Sánchez-Brunete, Beatriz Albero, Esther Miguel, José Luis Tadeo, Juan Alonso, and M. Carmen Lobo* 190
- Zinc Uptake by Spinach (*Spinacia oleracea* L.) as Affected by Zn Application Rate, Zeolite, and Vermicompost  
*Mahdi Najafi-Ghiri and Tayebe Rahimi* 203
- Assessment of Fulvic Acid-Like Fractions during Tannery Waste Composting  
*Fatima Benlboukht, Loubna El Fels, Rachid Bouamri, Soumia Amir, and Mohamed Hafidi* 208
