

Parent material influence on soil response to vegetation change, Southeastern Minnesota, U.S.A. J.A. Mason, P.M. Jacobs, K.E. Gruley, P. Reyerson and P.R. Hanson	1
Corrigendum to: "Long-term effects of olive mill pomace co-compost on wettability and soil quality in olive groves" [Geoderma 267 (2016) 185–195] V. Aranda, J. Calero, I. Plaza and A. Ontiveros-Ortega	18
The effect of tree species on seasonal fluctuations in water-soluble and hot water-extractable organic matter at post-mining sites Š. Cepáková, Z. Tošner and J. Frouz	19
Toward optimal soil organic carbon sequestration with effects of agricultural management practices and climate change in Tai-Lake paddy soils of China L. Zhang, Q. Zhuang, Y. He, Y. Liu, D. Yu, Q. Zhao, X. Shi, S. Xing and G. Wang	28
To which extent do rain interruption periods affect colloid retention in macroporous soils? R. van den Bogaert, S. Cornu and E. Michel	40
Soil organic matter stabilization at the pluri-decadal scale: Insight from bare fallow soils with contrasting physicochemical properties and macrostructures R. Paradelo, F. van Oort, P. Barré, D. Billiou and C. Chenu	48
UAS-based soil carbon mapping using VIS-NIR (480–1000nm) multi-spectral imaging: Potential and limitations E. Aldana-Jague, G. Heckrath, A. Macdonald, B. van Wesemael and K. Van Oost	55
Strong pulse effects of precipitation events on soil microbial respiration in temperate forests Q. Wang, N. He, Y. Liu, M. Li and I. Xu	67
Release of Pb in soils washed with various extractants C. Chen, T. Tian, M.K. Wang and G. Wang	74
Clarifications on statements in Badía et al. (2013), Geoderma 193–194, 13–21 J. Herrero and J. Mandado	82
