
CONTENTS

Using pedotransfer functions to estimate soil hydraulic conductivity in the Loess Plateau of China C. Zhao, M. Shao, X. Jia, M. Nasir and C. Zhang	1
Assessment of land cover change on the hydrology of a Brazilian headwater watershed using the Distributed Hydrology-Soil-Vegetation Model L.A. Alvarenga, C.R. de Mello, A. Colombo, L.A. Cuartas and L.C. Bowling	7
Hydrology and carbon dynamics of tropical peatlands from Southeast Brazil D.F.A. Bispo, A.C. Silva, C. Christofaro, M.L.N. Silva, M.S. Barbosa, B.P.C. Silva, U.M. Barral and J.D. Fabris	18
Spatial prediction of soil–water transmissivity based on fuzzy logic in a Brazilian headwater watershed L. Campos Pinto, C.R. de Mello, L.D. Norton, P.R. Owens and N. Curi	26
A rock-surface microweathering index from Schmidt hammer R-values and its preliminary application to some common rock types in southern Norway J.A. Matthews, G. Owen, S. Winkler, A.E. Vater, P. Wilson, R.W. Mourné and J.L. Hill	35
Comment on “Tillage effects on certain physical and hydraulic properties of a loamy soil under a crop rotation in a semi-arid region with a cool climate.” by Z. Gozubuyuk, U. Sahin, I. Ozturk, A. Celik, M. Cemal Adiguzel F. Haghghi Fashi	45
Revisiting storm runoff processes in the upper Blue Nile basin: The Debre Mawi watershed S.A. Tilahun, E.K. Ayana, C.D. Guzman, D.C. Dagnew, A.D. Zegeye, T.Y. Tebebu, B. Yitaferu and T.S. Steenhuis	47
Sediment deposition patterns in a tropical floodplain, Tana River, Kenya F.O. Omengo, T. Alleman, N. Geeraert, S. Bouillon and G. Govers	57
Conversion of forest into irrigated pasture II. Changes in the physical properties of the soil S.P. Oliveira, M.J.D. Cândido, O.B. Weber, F.A.S. Xavier, M.E. Ortiz Escobar and T.S. Oliveira	70
Meta-analysis of field scale spatial variability of grassland soil CO ₂ efflux: Interaction of biotic and abiotic drivers S. Fóti, J. Balogh, M. Herbst, M. Papp, P. Koncz, S. Bartha, Z. Zimmermann, C. Komoly, G. Szabó, K. Margóczy, M. Acosta and Z. Nagy ...	78
Flooding hydrology and peak discharge attenuation along the middle Araguaia River in central Brazil K.B. Lininger and E.M. Latrubesse	90
Paleosol and dolocrete associated clay mineral occurrences in siliciclastic red sediments of the Late Miocene Kömüşini Formation of the Tuzgölü basin in central Turkey A. Gürel and S. Özcan	102
Using rare earth elements to monitor sediment sources from a miniature model of a small watershed in the Three Gorges area of China G. Liu, H. Xiao, P. Liu, Q. Zhang and J. Zhang	114
The value of Google Earth™ for erosion mapping J. Boardman	123
Morphological, pedological, and sedimentary evolution on the fringe of the southwestern European drylands during the Late Pleistocene and Holocene: Evidence of climate and land use changes F. García-García, J. Calero and F. Pérez-Valera	128
Changes of soil properties and carbon fractions after long-term application of organic amendments in Mollisols L.-J. Li and X.-Z. Han	140

(Contents continued on last page of this issue)

(continued from outside back cover)

Evaluation of some proximal sensing methods for mapping soils in urbanized terrain, Detroit, Michigan, USA J.L. Howard, K.M. Orlicki and S.M. LeTarte	145
Distribution of soil carbon and nitrogen in two typical forests in the semiarid region of the Loess Plateau, China B.-L. Song, M.-J. Yan, H. Hou, J.-H. Guan, W.-Y. Shi, G.-Q. Li and S. Du	159
Stratigraphic control and chronology of peat bog deposition in the Serra do Espinhaço Meridional, Brazil J.R.d.R. Campos, A.C. Silva, L. Slater, M.R. Nanni and P. Vidal-Torrado	167
Historical erosion and sedimentation in two small watersheds of the southern Blue Ridge Mountains, North Carolina, USA D. Royall and L. Kennedy	174
Effects of sea-level rise and climatic changes on mangroves from southwestern littoral of Puerto Rico during the middle and late Holocene M.C.L. Cohen, R.J. Lara, E. Cuevas, E.M. Oliveras and L. Da Silveira Sternberg	187
The geochemical signature of suspended sediments in the Parana River basin: Implications for provenance, weathering and sedimentary recycling V.A. Campodonico, M.G. García and A.I. Pasquini	201
Effect of surface roughness and mulch on semi-arid revegetation success, soil chemistry and soil movement H.M. Beggy and J.S. Fehmi	215
Recent increase in debris flow activity in the Tatras Mountains: Results of a regional dendrogeomorphic reconstruction K. Šilhán and R. Tichavský	221
The role of the in situ weathering of dolerite on the formation of a peatland: The origin and evolution of Dartmoor Vlei in the KwaZulu-Natal Midlands, South Africa R.J. Edwards, W.N. Ellery and J. Dunlevey	232
Land use can offset climate change induced increases in erosion in Mediterranean watersheds X. Rodríguez-Lloveras, W. Buytaert and G. Benito	244
Restoration techniques affect soil organic carbon, glomalin and aggregate stability in degraded soils of a semiarid Mediterranean region L. Luna, I. Miralles, M.C. Andrenelli, M. Gispert, S. Pellegrini, N. Vignozzi and A. Solé-Benet	256
Digital close range photogrammetry for the study of rill development at flume scale M. Guo, H. Shi, J. Zhao, P. Liu, D. Welbourne and Q. Lin	265
Root reinforcement dynamics in subalpine spruce forests following timber harvest: A case study in Canton Schwyz, Switzerland C. Vergani, M. Schwarz, M. Soldati, A. Corda, F. Giadrossich, E.A. Chiaradia, P. Morando and C. Bassanelli	275
