## CONTENTS

- Integration of best management practices in the Bay of Quinte watershed with the phosphorus dynamics in the receiving waterbody: What do the models predict?** 1  
*G. B. Arhonditsis, D.-K. Kim, Y. Shimoda, W. Zhang, S. Watson, S. Mugalingam, M. Dittrich, K. Geater, C. McClure, B. Keene, A. Morley, A. Richards, T. Long, Y. R. Rao, and R. Kalinauskas (Canada)*
- Long term urban impacts on the ecological status of a lowland river as determined by diatom indices** 19  
*E. Szczepocka, P. Nowicka-Krawczyk, P. Knysak, and J. Żelazna-Wieczorek (Poland)*
- Using eutrophication and ecological indicators to assess ecosystem condition in Poyang Lake, a Yangtze-connected lake** 29  
*Y. Zhang, G. Yang, B. Li, Y. Cai, and Y. Chen (China)*
- Dianchi Lake, China: Geological formation, causes of eutrophication and recent restoration efforts** 40  
*X. Liu and H. Wang (China)*
- Effect of four wetland plants on nutrient removal and growth of eutrophic algae** 49  
*T. Zhong, Y.-H. Tian, B.-R. Song, Z.-J. Chen, Y. Zhang, Z.-H. Chen (China)*
- A study on water quality and trophic state of Akgöl Lagoon (Mersin, Turkey)** 58  
*M. T. Alp, Y. E. Fakioglu, Ö. Özbay, and M. A. T. Koçer (Turkey)*
- Can a copper sulphate pulse below toxic threshold change plankton communities?** 64  
*A. I. Del Arco, F. Jiménez-Gómez, F. Guerrero, and G. Parra (Spain)*
- Macroalgal assemblage changes on coral reefs along a natural gradient from fish farms in southern Hainan Island** 74  
*X. Li, E. A. Titlyanov, J. Zhang, T. V. Titlyanova, G. Zhang, and H. Huang (China)*

(Continued on inside back cover)

(Contents continued)

- Mud Crab (*Scylla serrata*) population changes in Koggala Lagoon, Sri Lanka since construction of the groyne system** 83  
*G. P. Amarasekara, T. Priyadarshana, J. Manatunge, N. Tanaka, and G. L. Gunaratne (Sri Lanka)*
- Seasonal and spatial variations of macrobenthic community structure and diversity in the South Yellow Sea** 92  
*Y. Xu, X. Li, H. Wang, and B. Zhang (China)*
