Review Articles

Rachis browning in tablegrapes <i>A. Lichter</i>	161
Ascorbic acid and white wine production: a review of beneficial versus detrimental impacts <i>C. Barril, D.N. Rutledge, G.R. Scollary and A.C. Clark</i>	169

Original Articles

Qualitative study of alcohol consumers who choose to avoid wine <i>E. McIntyre, L.A. Ovington, A.J. Saliba and C.C. Moran</i>	182
Comparison of the ability of wine experts and novices to identify odorant signals: a new insight in wine expertise <i>S. Tempere, M.-L. Hamtat, G. de Revel and G. Sicard</i>	190
Sensory effect of acetaldehyde on the perception of 3-mercaptohexan-1-ol and 3-isobutyl-2-methoxypyrazine <i>C. Coetzee, J. Brand, D. Jacobson and W.J. Du Toit</i>	197
Effect of acetaldehyde addition on the phenolic substances and volatile compounds of red Tempranillo wines <i>J.L. Aleixandre-Tudo, V. Lizama, I. Álvarez, H. Nieuwoudt, M.J. García, J.L. Aleixandre and W.J. du Toit</i>	205
Influence of berry diameter and colour on some determinants of wine composition of <i>Vitis vinifera</i> L. cv. Riesling <i>M. Friedel, V. Sorrentino, M. Blank and A. Schüttler</i>	215
Stilbene profiles in different tissues of <i>Vitis vinifera</i> L. cv. Cabernet Sauvignon and a comparison of their antioxidant activity <i>Y.-J. Wei, S.-R. Zhao, J.-M. Li and B. Xue</i>	226
Determining optimum harvest time under Mediterranean conditions: developing a new model for measuring L-malic acid concentration in red grapes <i>M.A. Olego, J.C. Álvarez, A. Tobes, J.M. de Paz, J.J.R. Coque and E. Garzón-Jimeno</i>	232
Time-course study of grape berry split using diffusion magnetic resonance imaging <i>R.J. Dean, G. Bobek, T. Stait-Gardner, S.J. Clarke, S.Y. Rogiers and W.S. Price</i>	240
Manipulation of ripening via antitranspirants in cv. Barbera (<i>Vitis vinifera</i> L.) <i>M. Gatti, M. Galbignani, A. Garavani, F. Bernizzoni, S. Tombesi, A. Palliotti and S. Poni</i>	245
Damage to grape flowers and berries by <i>Lobesia botrana</i> larvae (Denis & Schiffenmüller) (Lepidoptera: Tortricidae), and relation to larval age <i>L. Delbac and D. Thiéry</i>	256
Environmental effects on the production of <i>Botrytis cinerea</i> conidia on different media, grape bunch trash, and mature berries <i>N. Ciliberti, M. Fermaud, J. Roudet, L. Languasco and V. Rossi</i>	262
Grape root as habitat: overwintering and population dynamics of grape phylloxera (<i>Daktulosphaira vitifoliae</i> Fitch) in temperate climate viticulture <i>M. Hoffmann, E.H. Ruehl, G. Eisenbeis and L. Huber</i>	271
Optimisation of time of application of <i>Trichoderma</i> biocontrol agents for protection of grapevine pruning wounds <i>C. Mutawila, F. Halleen and L. Mostert</i>	279
Various fungal communities colonise the functional wood tissues of old grapevines externally free from grapevine trunk disease symptoms <i>E. Bruez, K. Baumgartner, S. Bastien, R. Travadon, L. Guérin-Dubrana and P. Rey</i>	288
Comparative effects of deficit and partial root-zone drying irrigation techniques using moderately saline water on ion partitioning in Shiraz and Grenache grapevines <i>K.A. Degaris, R.R. Walker, B.R. Loveys and S.D. Tyerman</i>	296
Vineyard irrigation scheduling based on airborne thermal imagery and water potential thresholds <i>J. Bellvert, P.J. Zarco-Tejada, J. Marsal, J. Girona, V. González-Dugo and E. Fereres</i>	307
Establishment of the soil water potential threshold to trigger irrigation of Kyoho grapevines based on berry expansion, photosynthetic rate and photosynthetic product allocation <i>Y. Lou, Y. Miao, Z. Wang, L. Wang, J. Li, C. Zhang, W. Xu, M. Inoue and S. Wang</i>	316
Impact of recent climate change and weather variability on the viability of UK viticulture – combining weather and climate records with producers' perspectives <i>A. Nesbitt, B. Kemp, C. Steele, A. Lovett and S. Dorling</i>	324
