Soil & Plant Science

CONTENTS

SHORT COMMUNICATION

- 553 Viruses infecting Brassica crops in the Black Sea Region of Turkey
Mehmet Ali Sevik

ORIGINAL ARTICLES

- 558 Correlation and path coefficient analyses of qualitative and quantitative traits in selected bottle gourd landraces
Jacob Mashilo, Hussein Shimelis and Alfred Odindo
- 570 Crop management and variety have influence on alkylresolcinol content in triticale grain
Bogusława Jaśkiewicz and Małgorzata Szczepanek
- 575 Effect of root morphological traits on zinc efficiency in Iranian bread wheat genotypes
Serveh Fathi, Mohammad Sadegh Sabet, Tahmineh Lohrasebi, Khadijeh Razavi, Ghasem Karimzadeh and Mojgan Gholami Malekroudi
- 583 Amelioration of salinity stress in different basil (*Ocimum basilicum* L.) varieties by vesicular-arbuscular mycorrhizal fungi
Khalid Elhindi, Ahmed Sharaf El Din, Eslam Abdel-Salam and Abdallah Elgorban
- 593 Different leguminous pre-crops increased yield of succeeding cereals in two consecutive years
Ilmar Tamm, Ülle Tamm, Anne Ingver, Reine Koppel, Ilme Tupits, Ants Bender, Sirje Tamm, Lea Narits and Mati Koppel
- 602 Nitrous oxide and methane fluxes during the growing season from cultivated peat soils, peaty marl and gyttja clay under different cropping systems
L. Norberg, Ö. Berglund and K. Berglund
- 613 Effects of humic acid and $\text{Ca}(\text{NO}_3)_2$ on nutrient contents in pepper (*Capsicum annuum*) seedling under salt stress
Ferit Sönmez and Füsün Gülser
- 619 A rapid diagnostic assay for detection and quantification of the causal agent of strawberry wilt from field samples
Seyed Mahyar Mirmajlessi, Inmaculada Larena, Marika Mänd and Evelin Loit
- 630 Plant and soil fertility characteristics of different winter wheat fields in the Huang-huai-hai plain of China
Zhengping Peng, Shaoyun Ma, Yanqun Wang, Mingxin Men, Yanan Liu, Abawi Yahya, Cheng Xue, Yapeng Zhou and Yanming Li
