

### Earth Technology and Engineering

- 389 **Helmut SCHAEBEN, Georg SEMMLER**  
The quest for conditional independence in prospectivity modeling: weights-of-evidence, boost weights-of-evidence, and logistic regression
- 409 **Lu REN**  
A case study of GOES-15 imager bias characterization with a numerical weather prediction model
- 419 **Wei LI, Changchun FENG, Chao DAI, Yongping LI, Chunhui LI, Ming LIU**  
An inexact risk management model for agricultural land-use planning under water shortage
- 432 **Zhiyong WU, Juan WU, Guihua LU**  
A one-way coupled atmospheric-hydrological modeling system with combination of high-resolution and ensemble precipitation forecasting
- 444 **Dengpan XIAO, Yanjun SHEN, He ZHANG, Juana P. MOIWO, Yongqing QI, Rende WANG, Hongwei PEI, Yucui ZHANG, Huitao SHEN**  
Comparison of winter wheat yield sensitivity to climate variables under irrigated and rain-fed conditions

### Environmental Geosciences

- 455 **Efthimios KARYMBALIS, Dimitrios PAPANASTASSIOU, Kalliopi GAKI-PAPANASTASSIOU, Maria FERENTINO, Christos CHALKIAS**  
Late Quaternary rates of stream incision in Northeast Peloponnese, Greece

- 479 **Babula JENA**  
Satellite remote sensing of the island mass effect on the Sub-Antarctic Kerguelen Plateau, Southern Ocean
- 487 **Changhai WANG**  
Driving forces behind the construction of an eco-compensation mechanism for wetlands in China
- 498 **Ziniu XIAO, Xiuhua ZHOU, Ping YANG, Hua LIU**  
Variation and future trends in precipitation over summer and autumn across the Yunnan region
- 513 **Jianmei JIANG, Lin ZHAO, Zhe ZHAI**  
Estimating the effect of shallow groundwater on diurnal heat transport in a vadose zone
- 527 **Junyong AI, Lan FENG, Xiaowei DONG, Xiaodong ZHU, Yangfan LI**  
Exploring coupling coordination between urbanization and ecosystem quality (1985—2010): a case study from Lianyungang City, China
- 546 **Xiangyu REN, Kai YANG, Yue CHE, Mingwei WANG, Lili ZHOU, Liqiao CHEN**  
Spatial and temporal assessment of the initial pattern of phytoplankton population in a newly built coastal reservoir

## **Earth Surface Processes**

- 560 **Sergey V. TROFIMENKO, Victor G. BYKOV, Nikolay V. SHESTAKOV, Nikolay N. GRIB, Hiroaki TAKAHASHI**  
A new insight into the nature of seasonal variations in coordinate time series of GPS sites located near active faults
- 570 **Cui DU, Lingkan YAO, Yidan HUANG, Jiahong YAN, Subhashsagar SHAKYA**  
Effects of seismic surge waves and implications for moraine-dammed lake outburst
- 578 **Liwen GONG, Ni LI, Qicheng FAN, Yongwei ZHAO, Liuyi ZHANG, Chuanjie ZHANG**  
Mapping the topography and cone morphology of the Dalinor volcanic swarm in Inner Mongolia with remote sensing and DEM Data

## **Global Change**

- 595 **Rui XING, Zhiying DING, Sangjie YOU, Haiming XU**  
Relationship of tropical-cyclone-induced remote precipitation with tropical cyclones and the subtropical high
