

CONTENTS

Volume 86, August 2016

Reviews

- 93** Strategies to develop healthier processed cheeses: Reduction of sodium and fat contents and use of prebiotics
L.L. Ferrão, E.B. Silva, H.L.A. Silva, R. Silva, N. Mollakhalili, D. Granato, M.Q. Freitas, M.C. Silva, R.S.L. Raices, M.C. Padilha, P.B. Zacarchenco, M.I.M.J. Barbosa, A.M. Mortazavian, A.G. Cruz (Brazil, Iran)
- 112** Could non-*Saccharomyces* yeasts contribute on innovative brewing fermentations?
R.F. Basso, A.R. Alcarde, C.B. Portugal (Brazil)
- 140** The current knowledge on the application of anti-biofilm enzymes in the food industry
A. Meireles, A. Borges, E. Giaouris, M. Simões (Portugal, Greece)

Research Articles

- 1** Microencapsulation of flaxseed oil in flaxseed protein and flaxseed gum complex coacervates
P. Kaushik, K. Dowling, S. McKnight, Colin.J. Barrow, B. Adhikari (Australia)
- 9** Combined biocatalytic conversion of smooth hound viscera: Protein hydrolysates elaboration and assessment of their antioxidant, *anti*-ACE and antibacterial activities
O. Abdelhedi, M. Jridi, I. Jemil, L. Mora, F. Toldrá, M.-C. Aristoy, A. Boualga, M. Nasri, R. Nasri (Tunisia, Spain, Algeria)
- 24** *Citharexylum solanaceum* fruit extracts: Profiles of phenolic compounds and carotenoids and their relation with ROS and RNS scavenging capacities
É.O. Barizão, J.V. Visentainer, V. de Cinque Almeida, D. Ribeiro, R.C. Chisté, E. Fernandes (Portugal, Brazil)
- 34** Characterization of a new peptide transport system in *Streptococcus thermophilus*
N. Jameh, W. Galia, A.A. Awussi, E. Roux, M. Genay, C. Perrin, A. Dary-Mouroto (France)
- 46** Aging practices influence chemical and sensory quality of cachaça
A.M. Bortoletto, A.C. Correa, A.R. Alcarde (Brazil)
- 54** Effects of high intensity ultrasound and emulsifiers on crystallization behavior of coconut oil and palm olein
J.M. Maruyama, A. Wagh, L.A. Gioielli, R.C.d. Silva, S. Martini (Brazil, United States)
- 64** Carotenoid transfer to oil during thermal processing of low fat carrot and tomato particle based suspensions
L. Mutsokoti, A. Panozzo, A. Van Loey, M. Hendrickx (Belgium)
- 74** Differences in pig genotypes influence the generation of peptides in dry-cured ham processing
L. Mora, L. Calvo, E. Escudero, F. Toldrá (Spain)
- 83** NMR profiling clarifies the characterization of Finnish honeys of different botanical origins
M. Kortesiemi, C.M. Slupsky, T. Ollikka, L. Kauko, A.R. Spevacek, O. Sjövall, B. Yang and H. Kallio (Finland, USA)
- 104** Modification of perceived beer bitterness intensity, character and temporal profile by hop aroma extract
O. Oladokun, A. Tarrega, S. James, T. Cowley, F. Dehrmann, K. Smart, D. Cook, J. Hort (UK)
- 121** DNA diversity in olive (*Olea europaea* L.) and its relationships with fatty acid, biophenol and sensory profiles of extra virgin olive oils
F. Grasso, A. Paduano, G. Corrado, M.L. Ambrosino, R. Rao, R. Sacchi (Italy)

(Continued on next page)

(Continued from previous page)

- 131** Effects of malondialdehyde-induced protein modification on water functionality and physicochemical state of fish myofibrillar protein gel
L. Wang, M. Zhang, B. Bhandari, Z. Gao (China, Australia)
- 147** Flavor release from spray-dried amorphous matrix: Effect of lactose content and water plasticization
R. Li, Y.H. Roos, S. Miao (Ireland)
- 156** A kinetic model and endpoints method for volatiles formation in stored fresh fish
M. Peleg (United States)

Book Review

- 103** Chocolate and health – Chemistry, nutrition and therapy, edited by Philip K. Wilson and W. Jeffrey Hurst.
M.R. Marostica Junior (Brazil)
