

## CONTENTS

Volume 13 Number 5 2016

### ARTICLES

- Antibacterial Efficiency of Mordant-Treated Cotton and Polyamide Fabrics, Before and After Dyeing  
*Sheila Shahidi* 507
- Spectroscopic, Mechanical, and Thermal Characterization of Native and Modified Nigerian Coir Fibers  
*C. O. Akintayo, M. A. Azeez, Sabine Beuerman, and E. T. Akintayo* 520
- Influence of Recycling Frequency on Mechanical and Physical Properties of Kenaf Fiber Reinforced Polyoxymethylene Composite  
*Yakubu Dan-Mallam, Mohamad Zaki Abdullah, and Puteri Sri Melor Megat Yusoff* 532
- Preparation of Unidirectional *Grewia Serrulata* Fiber-Reinforced Polyester Composites and Evaluation of Tensile and Flexural Properties  
*G. T. Mahesha, S. B. Satish, K. M. Vijaya, and K. S. Bhat* 547
- Application of an Automatic Yarn Dismantler to Track Changes in Cotton Fiber Properties during Full Scale Processing of Cotton into Carded Yarn  
*Akbar Fassihi and Lawrance Hunter* 555
- Fiber Extraction from Dual-Purpose Flax  
*Ritu Pandey* 565
- The Influence of LiCl/DMAc Microdissolution Treatment on Tensile Property of Hemp/Cotton Blended Yarn  
*Zhili Zhong, Zhendong Liao, and Linling Lu* 578
- Influence of the Fiber Origin on its Structure and Geometrical Indices  
*J. Rusinavičiūtė, A. Ragaišienė, and W. Biniś* 585
- Potential of Mestha (*Hibiscus sabdarifa*) for Remediation of Soils Contaminated with Chromium  
*S. Ramana, A. K. Biswas, Ajay, A. B. Singh, S. Srivastava, and Azmi Naqvi* 597
- Study on Reuse of Coconut Fiber Chemical Retting Bath. Part 1: Retting Efficiency  
*Seiko Jose, L. Mishra, G. Basu, and A. K. Samanta* 603
- Mechanical Behavior of Nettle/Wool Fabric Reinforced Polyethylene Composites  
*Temesgen Berhanu Yallew, Pradeep Kumar, and Inderdeep Singh* 610
- Study of Antimicrobial Properties of Fabrics Treated with *Ocimum Sanctum* L (*tulsi*) Extract as a Natural Active Agent  
*K. B. Ravindra and K. Murugesh Babu* 619
