Issue 10 Volume 14 December 2016

519 Guest Editorial

Reinventing conservation – again
ST Jackson

520 Dispatches

New CA law redefines watersheds as natural infrastructure
UNEP urges world to invest in walking and cycling
Kenya fights desertification
Swimming for cooler horizons
Taking the bait
UNEP pushes Kilimanjaro reforestation
Germany proves renewables won't upset power grid
Artificial cavities make great parrot homes
Not all methane leaks are created equal
The intertwined fates of Africa's savanna species

525 Write Back

Letters to the editor regarding the contents of past issues and comments on topics of current concern to *Frontiers* readers

Erratum 526

527 Research Communications

Using ecosystem service trade-offs to inform water conservation policies and management practices

H Zheng, Y Li, BE Robinson, G Liu, D Ma, F Wang, F Lu, Z Ouyang, and GC Daily

533 Reviews

War and wildlife: linking armed conflict to conservation

KM Gaynor, KJ Fiorella, GH Gregory, DJ Kurz, KL Seto, LS Withey, and JS Brashares 533

Functional traits of urban trees: air pollution mitigation potential

R Grote, R Samson, R Alonso, JH Amorim, P Cariñanos, G Churkina, S Fares, D Le Thiec, Ü Niinemets, TN Mikkelsen, E Paoletti, A Tiwary, and C Calfapietra 543

551 Concepts and Questions

Assessing data quality in citizen science
M Kosmala, A Wiggins, A Swanson, and B Simmons 551

Avoiding ecosystem collapse in managed forest ecosystems

D Lindenmayer, C Messier, and C Sato 561

569 Natural History Notes

Homeward bound: fish larvae use dispersal corridors when settling on coral reefs

R Karkarey and AH Theo 569

Heat production by an Ecuadorian palm

S Pincebourde, R Montúfar, E Páez, and O Dangles 571

573 Frontiers Trading Post

Products, services, academic programs and courses, employment opportunities, awards, announcements, conferences, and meetings

580 Life Lines

Staving off extinction
A Burton
