

# BIOLOGY AND ENVIRONMENT

## CONTENTS

- 133 **Foreword**  
Catherine Coxon and Caroline Wynne
- 135 **Funding research to provide the evidence and the knowledge-base to inform and support policy in Ireland: The EPA Water Research Programme**  
Alice Wemaere
- 157 **Progress and Challenges in Managing our Catchments Effectively**  
Donal Daly, Marie Archbold and Jenny Deakin
- 167 **Should rare or distinctive river types be given special consideration under the Water Framework Directive? A synthesis of available information**  
Edel Hannigan, Hugh B. Feeley, and Mary Kelly-Quinn
- 179 **Predicting lake alkalinity and depth for classifying Irish lakes under the Water Framework Directive typology**  
Caroline Wynne, Deirdre Tierney and Ian Donohue
- 191 **Lake ecological assessment metrics in Ireland: relationships with phosphorus and typology parameters and the implications for setting nutrient standards**  
Gary Free, Deirdre Tierney, Ruth Little, Fiona L. Kelly, Bryan Kennedy, Caroline Plant, Wayne Trodd, Caroline Wynne, Rossana Caroni and Colin Byrne
- 205 **The Water Framework Directive: Advances in fish classification tools in Ireland**  
Fiona L. Kelly and Trevor D. Harrison
- 221 **Fish in Tidal Freshwater Transitional Waters (TFTW) in Ireland: recommendations for assessment, policy and management of ecological quality under the Water Framework Directive (WFD)**  
James G. Wilson, Michelle Giltrap and Fiona Kelly
- 233 **Understanding pathways transferring nutrients to streams – Review of a major Irish study and its implications for determining water quality management strategies**  
Jenny Deakin, Ray Flynn, Marie Archbold, Donal Daly, Ronan O'Brien, Alison Orr and Bruce Misstear
- 245 **Nutrient Load Apportionment to Support the Identification of Appropriate Water Framework Directive Measures**  
Eva M. Mockler<sup>1</sup>, Jenny Deakin, Marie Archbold, Donal Daly and Michael Bruen
- 265 **A GIS and remote sensing based screening tool for assessing the potential for groundwater discharge to lakes in Ireland**  
Jean Wilson, Catherine Coxon and Carlos Rocha
- 279 **Integrating observed, inferred and simulated data to illuminate environmental change: a limnological case study**  
Catherine Dalton, Eleanor Jennings, Barry O'Dwyer and David Taylor
- 295 **Linking changes in nutrient source load to estuarine responses: an Irish perspective**  
Sorcha Ní Longphuirt, Eva Mockler, Shane O'Boyle, Caroline Wynne and Dagmar Brigitte Stengel
- 313 **What have we learned from over two decades of monitoring riverine nutrient inputs to Ireland's marine environment?**  
Shane O'Boyle, Rebecca Quinn, Noelle Dunne, Eva M. Mockler and Sorcha Ní Longphuirt
- 329 **Opinion article: Incorporating nature conservation objectives and measures into the Water Framework Directive**  
Áine O Connor
