Varietal Difference of Hop-Derived Flavour Compounds in Late-Hopped/Dry-Hopped Beers

K. Takoi, K. Tokita, A. Sanekata, Y. Usami, Y. Itoga, K. Koie, I. Matsumoto and Y. Nakayama..... 1

New International Calibration Standard (ICS-H2) for HPLC Analysis of Hexahydroiso- α -acids – Submitted on behalf of the International Hop Standards Committee

M. Biendl and B. Foster..... 8

Headspace Trap GC-MS analysis of hop aroma compounds in beer

C. Schmidt and M. Biendl..... 9

Characterization and detection of the glycosyltransferase (gtf) genes in ropy beer-spoilage lactic acid bacteria

M. Shimokawa, S. Naito, K. Suzuki and H. Yamagishi..... 16

Ozone III: Application of Boron-Doped Diamond Electrodes for Inactivation of Microbial Contaminants in Different Water Matrices

C. Heim, M. Rajab, T. Letzel, J. E. Drewes and B. Helmreich.. 21

Alginate - A Novel Filter Aid in Precoat and Cake Filtration

S. Hippmann, H. M. Eßlinger and M. Bertau..... 26

New Concept for Physiological Assessment of Yeast Cells

T. Imai and M. Mochizuki..... 33

Lactobacillus sp. brewery isolate: A new threat to the brewing industry?

J. Koob, F. Jacob, F.-J. Methner and M. Hutzler..... 42

Chances for dry-hopped non-alcoholic beverages? Part 1: Concept and market prospects

M. H. Hagemann, K. Bogner, E. Marchioni and S. Braun..... 50

Metal Chelation Behavior of Hop Acids in Buffered Model Systems

P. C. Wietstock, T. Kunz, F. Pereira and F.-J. Methner..... 56

Flash Pasteurisation of Filtrated- and Wheat Beer with one Heat Holding Tube

R. Feilner and T. Oehmichen..... 64

Influence of Hopping Technology on Oxidative Stability and Staling-Related Carbonyls in Pale Lager Beer

P. C. Wietstock, T. Kunz and F.-J. Methner..... 73

Control of Hop Aroma Impression of Beer with Blend-Hopping using Geraniol-rich Hop and New Hypothesis of Synergy among Hop-derived Flavour Compounds

K. Takoi, Y. Itoga, J. Takayanagi, I. Matsumoto and Y. Nakayama..... 85

Development of a Tasting Scheme and a New Systematic Evaluation Program for new German Breeding Lines by example of the New German varieties Callista (CI) and Ariana (AN)

S. Hanke, F. Schüll, E. Seigner and A. Lutz..... 94

Reproducibility Trials in a Research Brewery and Effects on the Evaluation of Hop Substances in Beer – Part 1: Reproducibility in fresh beers

A. Gahr, A. Forster and F. Van Opstaele..... 103

An exploratory study toward describing hop aroma in beer made with American and European Hop Cultivars

D. C. Sharp, Y. Qian, J. Clawson and T. H. Shellhammer..... 112

Disintegration of Hop Pellets during Dry Hopping

J. Engstle, M. Kuhn, M. Kohles, H. Briesen and P. Först..... 123

Inclusion complexes of trans-iso- α -acids with β -cyclodextrin: preparation of highly enriched cis- and trans-iso- α -acids

J. De Clippeleer, F. Van Opstaele, L. De Cooman and G. Aerts..... 128
