## REVIEW PAPER

Soil compaction and controlled traffic considerations in Australian cotton-farming systems

*Diogenes L. Antille, John McL. Bennett, Troy A. Jensen*

1

## RESEARCH PAPERS

The Chinese bread wheat cultivar Xiaoyanmai 7 harbours genes encoding a pair of novel high-molecular-weight glutenin subunits inherited from cereal rye

*Bo Feng, Francesco Sestili, Stefania Masci, Benedetta Margiotta, Zhibin Xu, Zujun Yang, Chao Xiang, Chunhong Zhou, Domenico Lafianra, Tao Wang*

29

Identification of quantitative trait loci for agronomic traits contributed by a barley (*Hordeum vulgare*) Mediterranean landrace

*Ridha Boudiar, Ana M. Casas, Carlos P. Cantalapiedra, M. Pilar Gracia, Ernesto Igartua*

37

Nitrogen uptake efficiency of maize in monoculture and intercropped with *Brachiaria humidicola* and *Panicum maximum* in a dystrophic Red-Yellow Latosol of the Brazilian Cerrado

*Thais Rodrigues Coser, Maria Lucrecia Gerosa Ramos, Cícero Célio de Figueiredo, Segundo Urquiaga, Arminda Moreira de Carvalho, Filipe Vieira Barros, Maria Thereza Mendonça*

47

Association mapping of winter hardiness and yield traits in faba bean (*Vicia faba* L.)

*Ahmed Sallam, Arun Prabhu Dhanapal, Siyang Liu*

55

Pasture mixes with lucerne (*Medicago sativa*) increase yields and water-use efficiencies over traditional pastures based on subterranean clover (*Trifolium subterraneum*)

*M. R. McCaskill, M. C. Raeside, S. G. Clark, C. MacDonald, B. Clark, D. L. Partington*

69

Genotype resistance, inoculum source and environment directly influence development of grey leaf spot (caused by *Stemphylium* spp.) and yield loss in narrow-leafed lupin (*Lupinus angustifolius*)

*Arbab Ahmad, Geoff J. Thomas, Susan J. Barker, William J. MacLeod*

81

Beneficial soil microbe promotes seed germination, plant growth and photosynthesis in herbal crop *Codonopsis pilosula*

*Yong-Na Wu, Yu-Lan Feng, Paul W. Paré, Ying-Long Chen, Rui Xu, Shan Wu,*

*Suo-Min Wang, Qi Zhao, Hui-Ru Li, Yin-Quan Wang, Jin-Lin Zhang*

91

Use of thermographic imaging to screen for drought-tolerant genotypes in *Brachypodium distachyon*

*Magdalena Ruiz, Miguel Quemada, Rosa M. García, José M. Carrillo, Elena Benavente*

99

Mapping spatial variability of leaf nutrient status of oil palm (*Elaeis guineensis* Jacq.) plantations in India

*S. K. Behera, K. Suresh, K. Ramachandrudu, K. Manorama, B. N. Rao*

109
