- 1-10** Antioxidant capacity of frozen *Pleurotus ostreatus* during convective drying. L. VALIENTE, E. OHACO AND A. DE MICHELIS

Mushroom processing is important to preserve basidiocarps for long periods. The authors dried frozen *Pleurotus ostreatus* in southern Argentina, and found that several antioxidant properties were maintained. This opens up the possibility of using oyster mushrooms out of the cultivation season.

- 11-15** Obituary for Dr. Ralph Harold Kurtzman, Jr. D. MARTÍNEZ-CARRERA

*In memoriam* of our co-editor.
