

of Plant Pathology

Formerly *Rivista di patologia vegetale*

established in 1892

Contents

- 189 On the fungal species *Gnomoniopsis castaneae* ("castanea") and its synonym *G. smithogilvyi*
G. Tamietti
- 191 Association of *Candidatus Liberibacter solanacearum* with the decline of tomato (*Solanum lycopersicum* L.)
R.I. Rojas-Martínez, F. Zavaleta-Mejía, D.L. Ochoa-Martínez, I. Alanís-Martínez and F. García-Tapia
- 197 Antagonistic activity of fungi from anthracnose lesions on *Paullinia cupana* against *Colletotrichum* sp.
M.L. Bonatelli, S. Tsui, J. Marcon, B.D. Batista, E.W. Kitajima, J.O. Pereira, J.L. Azevedo and M.C. Quecine
- 207 Occurrence of gray leaf spot of *Physalis alkekengi* caused by *Cercospora* cf. *physalidicola* in China
Z.H. Lu, H.J. Xu, R.J. Zhou, J.F. Fu and C.Y. Xue
- 211 Modelling the temperature-mycelial growth rate relationships in fungi *Rhizoctonia* spp.
A. Alizadeh Mihan and M.A. Agbajani
- 219 Suppression of *Fusarium*-induced cellular damage and death in wheat by low-dose Cd²⁺ pre-treatment
S. Mohapatra and B. Mitra
- 227 Anatomical characterization of *Eucalyptus globulus* wood decay by two white rot species of *Trametes*
I.M. Bhatt, S. Pramod, R.D. Koyani and K.S. Rajput
- 235 Differential proteomic study of oil palm leaves in response to *in vitro* inoculation with pathogenic and non-pathogenic *Ganoderma* spp.
J.R. Al-Obaidi, N.B. Sajdi, S.R.A. Usulidin, N. Rahmad, Ng.B. Zean and A.S. Idris
- 245 Evaluation of PCR and non-radioactive molecular hybridization techniques for the routine diagnosis of *Tomato leaf curl New Delhi virus*, *Tomato yellow leaf curl virus* and *Tomato yellow leaf curl Sardinia virus*
A. Alfaro-Fernández, J.A. Sánchez-Navarro, M. Landeira, M.I. Font, D. Hernández-Llopis and V. Pallás
- 255 Development of an *in planta* infection system for the early detection of *Ganoderma* spp. in oil palm
K.M. Gob, M. Dickinson, P. Alderson, L.V. Yap and C.V. Supramaniam
- 265 Analysis of *Agrobacterium* populations isolated from Tunisian soils: genetic structure, virulent/virulent ratios and characterization of tumorigenic strains
M. Bouri, M. Chattaoui, H.B. Gharsa, A. McClean, D. Kluepfel, X. Nesme and A. Rhouma
- 275 Biological control of post harvest fruit diseases using antagonistic yeasts in India
V.Y. Zhimo, D.D. Bhutia and J. Saha
- 285 Etiology of bacterial canker on young sweet cherry trees in Serbia
J. Balaž, R. Ilić, V. Ognjanov, Ž. Ivanović and T. Popović
- 295 Genetic variability of RNA-1, RNA-2 and RNA-3 of *Fig mosaic virus* isolates from Tunisia
M. El Air, N. Mahfoudhi, M.H. Dhouibi, M. Digiario and T. Elbeaino
- 301 Biological and molecular characteristics of *Bean common mosaic virus* isolates circulating in common bean in Iran
T. Jobary, A. Dizadji and M. Naderpour
- 311 Evaluation of different PCR primers for identification of tumorigenic bacteria associated with grapevine crown gall
N. Kuzmanović, E. Biondi, M. Ivanović, A. Prokić, N. Zlatković, A. Bertaccini and A. Obradović
- 321 Morphological and molecular identification of *Neopestalotiopsis asiatica* causing leaf spot on sweet almond (SHORT COMMUNICATION)
N. Ayoubi and M.J. Soleimani
- 327 Molecular detection of *Thecaphora frezii* in peanut (*Arachis hypogaea* L.) seeds (SHORT COMMUNICATION)
I. Cazón, C. Conforto, F.D. Fernández, J.A. Paredes and A.M. Rago

EDIZIONI ETS, Pisa, Italy

Poste Italiane S.p.A. - Spedizione in Abbonamento Postale - D.L. 353/2003
(conv. in L. 27/02/2004 n° 46) art. 1, comma 1 - DCB AREA CENTRO 1/Pisa.

ISSN 1125-4653

- 331 Trichothecene genotypes of *Fusarium graminearum* species complex and *F. cerealis* isolates from Mexican cereals (SHORT COMMUNICATION)
M. Osman, X. He, S. Benedettelli and P.K. Singh
- 337 Tomato yellow leaf curl Yunnan virus, a new *Begomovirus* species associated with tomato yellow leaf curl disease in China (SHORT COMMUNICATION)
M. Ding, T. Li, Q. Fang, Z. Zhang and X. Zhou
- 341 Incidence and distribution of Fig badnavirus 1 and Mulberry badnavirus 1 on mulberry trees in Iran (SHORT COMMUNICATION)
A. Alishiri, F. Rakhshandehroo, M. Shams-bakhsb and G.R. Salebi Jouzani
- 347 A TaqMan real-time RT-PCR assay for detection of *Groundnut ringspot virus* (SHORT COMMUNICATION)
E. Urzêdo Leão, L. Tavella, R. Krause-Sakate and M. Turina
- 351 Morphological and molecular characterization of *Sclerotium rolfsii* associated with leaf blight disease of *Psychotria nervosa* (wild coffee) (SHORT COMMUNICATION)
S. Mahadevakumar and G.R. Janardhana
- 355 Occurrence and molecular detection of *Spiroplasma citri* in carrots and its insect vector, *Circulifer tenellus*, in Mexico (SHORT COMMUNICATION)
K.D. Swisher, R. Velásquez-Valle, J. Mena-Covarrubias and J.E. Munyaneza
- 361 Contamination of moth mullein (*Verbascum blattaria* L.) seeds by *Phoma novae-verbascicola* (SHORT COMMUNICATION)
D. Bertetti, G. Ortu, M.L. Gullino and A. Garibaldi
- 365 Development of a species-specific real-time PCR assay for diagnosing *Pantoea beijingensis* (SHORT COMMUNICATION)
Y. Ma, C. Rong, S. Wang, Y. Liu, J. Wang and F. Xu
- 369 First report of damping off of *Vaccinium bracteatum* caused by *Ceratobasidium* sp. from eastern China (DISEASE NOTE)
T.T. Dai
- 369 Algal leaf spot of *Lansium parasiticum* caused by *Cephaleuros* sp. in Thailand (DISEASE NOTE)
A. Sunpapao, N. Thithuan, M.K. Pitaloka and S. Arikitt
- 370 First report of species in the *Cladosporium cladosporioides* complex causing pecan leaf spot in Brazil (DISEASE NOTE)
C. Walker, M.F.B. Muniz, R.R.O. Martins, R. Mezzomo, J.M. Rolim and E. Blume
- 370 First report of leaf spot caused by *Colletotrichum kahawae* on american sweetgum (*Liquidambar styraciflua*) in Italy (DISEASE NOTE)
A. Garibaldi, G. Gilardi, S. Franco-Ortega and M.L. Gullino
- 371 First report of tobacco root rot caused by *Phytophthora nicotianae* in Mexico (DISEASE NOTE)
M. Camacho-Tapia, A. Almaraz-Sánchez, S.G. Leyva-Mir and J.M. Tovar-Pedraza
- 371 Detection of Fig mosaic virus, Fig leaf mottle-associated virus 1 and Fig mild mottle-associated virus in Bosnia and Herzegovina (DISEASE NOTE)
D. Delić, T. Elbeaino, B. Lolić and G. Đurić
- 372 First report of leaf spot caused by *Bartalinia robillardoides* on *Parthenocissus quinquefolia* in China (DISEASE NOTE)
S. Chen, H. Zhao, Z. Wang, A. Liu, X. Zhou, X. Lin and G.J. Abammed
- 372 First report of 16SrVI-A and 16SrXII-A phytoplasmas associated with Alfalfa witches' broom disease in Iran (DISEASE NOTE)
S.A. Esmailzadeh Hosseini, G. Khodakaramian, M. Salehi and A. Bertaccini
- 373 First report of 'Jun jujube' stem rot caused by *Cytospora* sp. in south of Xinjiang, China (DISEASE NOTE)
X.F. Chen, L. Chen and L. Wang
- 373 First report of *Citrus yellow vein clearing virus* infecting new natural host plants in Turkey (DISEASE NOTE)
N. Önelge, O. Bozan and P. Gök-Güler
- 374 First report of *Curvularia lunata* causing leaf spots on loquat from Pakistan (DISEASE NOTE)
M.F. Abbas, F. Naz, A. Tariq, A. Mumtaz, G. Irsbad and C.A. Rauf

- 374 **First report of ‘*Candidatus Liberibacter solanacearum*’ in commercial carrot seeds in Italy (DISEASE NOTE)**
V. Ilardi, E. Di Nicola and M. Tavazza
- 375 **Soft rot of onion bulbs caused by *Burkholderia gladioli* pv. *alliicola* in Slovenia (DISEASE NOTE)**
J. Lamovšek, B. Gerič Stare, M. Žerjav and G. Urek
- 375 **Powdery mildew caused by *Golovinomyces cichoracearum* on black mullein (*Verbascum nigrum* L.) “album” in Italy (DISEASE NOTE)**
A. Garibaldi, D. Bertetti, S. Franco Ortega and M.L. Gullino
- 376 **First report of a 16SrIX group (Pigeon pea witches'-broom) phytoplasma associated with grapevine yellows in Iran (DISEASE NOTE)**
E. Salehi, M. Salehi, S.M. Taghavi and K. Izadpanah
- 376 **First report of *Ramularia collo-cygni* infecting barley in South Africa (DISEASE NOTE)**
I. Beukes, T. Jensen and S. Coertze
- 377 **First report of *Microsphaeropsis olivacea* causing brown spine rot on *Alhagi maurorum* in Iran (DISEASE NOTE)**
P. Razaghi and D. Zafari
- 377 **First report of *Pilidiella granati* causing postharvest fruit rot on pomegranate in southern Italy (DISEASE NOTE)**
A. Mincuzzi, F. Garganese, A. Ippolito and S.M. Sanzani
