

THE JOURNAL OF  
**Horticultural  
& Science  
Biotechnology**

- 435 Influence of calcium propionate on the control of post-harvest rots of jujube and the biocontrol activity of an antagonistic yeast  
*D. Q. Guo, W. H. Wang, Y. F. Pu, Q. Xu, L. X. Zhu and B. Q. Yang*
- 441 Investigating the most effective factors in the embryo rescue technique for use with 'Flame Seedless' grapevine (*Vitis vinifera*)  
*A. Ebad, M. Aalifar, M. Farajpour and M. R. Fatahi Moghaddam*
- 448 Isolation, cloning, and expression of five genes related to nitrogen metabolism in peach (*Prunus persica* L. Batsch)  
*C. H. Zhang, B. B. Zhang, M. L. Yu, R. J. Ma, Z. Z. Song and N. K. Korir*
- 456 Molecular cloning and sequence analysis of the kaurene oxidase (*MmKO*) gene in mulberry (*Morus multicaulis*) and patterns of *MmKO* gene expression under abiotic stress conditions  
*Rui-Xue Li, Jian Zhang, Jiao Qian, Feng Li, Long Li and Wei-Guo Zhao*
- 466 Gene expression changes in leaves of *Citrus sinensis* (L.) Osbeck infected by *Citrus tristeza virus*  
*Chunzhen Cheng, Yongyan Zhang, Yun Zhong, Jiawei Yang and Shutang Yan*
- 476 Simultaneous down-regulation of *DORMANCY-ASSOCIATED MADS-box6* and *SOC1* during dormancy release in Japanese apricot (*Prunus mume*) flower buds  
*Yuto Kitamura, Takanori Takeuchi, Hisayo Yamane and Ryutaro Tao*
- 483 Reciprocal difference of interspecific hybridization between three different colours of *Iris dichotoma* and *I. domestica*  
*Xiaoyin Lian, Gangjun Luo, Hui Li, Wenji Xu, Yuee Xiao and Xiaoying Bi*
- 491 Genotype, ultraviolet irradiation, and harvesting time interaction effects on secondary metabolites of whole lettuce and browning of fresh-cut product  
*Athanasios Koukounaras, Anastasios S. Siomos, Dimitrios Gerasopoulos and Katerina Karamanoli*
- 497 Comparison of anti-oxidant activities and fruit quality attributes in four sweet bell pepper (*Capsicum annuum* L.) cultivars grown in two soilless media  
*Leila Aslani, Mostafa Mobli and Javad Keramat*
- 506 The differences between two tea varieties in their response to natural cold conditions  
*Zhao-Tang Ding, Qing-Ping Ma and Yu Wang*
- 514 Microsporogenesis and male gametophyte development in *Prunus mahaleb* Linn.  
*Ying Feng, Yuliang Cai, Xue Zhang, Tianxiang Gao, Xiaoqian Mu and ChengLin Liang*
- 520 Variety-specific responses of lettuce grown under the different-coloured shade nets on phytochemical quality after postharvest storage  
*Lucia L.M. Ntsoane, Puffy Soundy, John Jifon and Dharini Sivakumar*
- 529 Production of genetically uniform plants from shoot tips of *Aconitum heterophyllum* Wall. – a critically endangered medicinal herb  
*Nidhi S. Belwal, Barkha Kamal, Vikas Sharma, Sanjay Gupta, Anoop Kumar Dobriyal and Vikash S. Jadon*
- 536 Analysis of virus structure variants in before- and after-thermotherapy-treated apple plants  
*Guojun Hu, Zunping Zhang, Yafeng Dong, Xudong Fan, Fang Ren, Zhengnan Li and Jun Zhou*
- 542 Postharvest handling practices and irradiation increase lenticel discolouration in 'B74' mango fruit  
*J. R. Marques, P. J. Hofman and A. J. Macnish*
- 549 Corrigendum
