

CONTENTS

S.No	Article Title	Page Number
1.	Fractal Analysis of Morpho-Physiological Parameters of <i>Oxycoccus Palustris</i> Pers in Oligotrophic Swamps of Western Siberia	1-3
2.	Seasonal Dynamic of Morpho-Physiological Properties and the Lipid Composition of <i>Plantago Media</i> (Plantaginaceae) in the Middle Volga Region	4-9
3.	Marker based Genetic Diversity of Rice Genotypes for Salinity Tolerance at Panicle Initiation Stage	10-15
4.	Comparative Study of Fruiting Body Production of some Oyster Mushroom in Two Different Temperatures	16-21
5.	Yield Forecasting Models based on Weather Parameters for Eastern U.P.	22-24
6.	Impact of Different Pruning Severity and Nutrient Management on Growth and Yield of Lemon cv. Assam Lemon (<i>Citrus limon</i> Burm.)	25-32
7.	Physicochemical Analysis and Homology Modeling of Antioxidant Proteins of Foxtail Millet (<i>Setaria Italica</i>)	33-40
8.	Antioxidant and Anti-Cholinergic Activities of Phenolic Compounds Isolated From <i>Thymus Linearis</i> Collected from Dir, Pakistan	41-46
9.	The Potential Geographic Analysis and Prediction of <i>Acer tataricum</i> subsp. <i>Ginnala</i> in China	47-54
10.	Quality's Attributes of Tomato Conducted under Greenhouse in Relation to Climatic Conditions	55-59
