

THE JOURNAL OF

Horticultural & Science Biotechnology

- 335 Understanding the phenylpropanoid pathway for agronomical and nutritional improvement of mungbean
Praveen Guleria and Vineet Kumar
- 349 PSAG12-IPT overexpression in eggplant delays leaf senescence and induces abiotic stress tolerance
X. O. Xiao, Y. M. Zeng, B. H. Cao, J. J. Lei, Q. H. Chen, C. M. Meng and Y. J. Cheng
- 358 McMYB10 regulates anthocyanins and quercetin accumulation during the fruit development of crabapples
By Yanfen Lu, Suxiao Hao, Yufen Bu, Shaolan Yang, Jie Zhang, Liqiang Liu and Yuncong Yao
- 367 Flowering performance and yield of established and recent strawberry cultivars (*Fragaria* × *ananassa*) as affected by raising temperature and photoperiod
A. Sønsteby and O. M. Heide
- 376 First reported case of spontaneous hermaphroditism in female date palm (*Phoenix dactylifera* L.), cv 'Alligae'
Ahmed Othmani, Myriam Collin, Amel Sellemi, Shri Mohan Jain, Nouredine Drira and Frédérique Aberlenc
- 389 Physiological response of the medicinal plant artichoke (*Cynara scolymus* L.) to exogenous salicylic acid under field saline conditions
H. Daghighian, F. Mortazaie Nejad and B. Bahreininejad
- 397 Phenotype analysis of mycelium growth regeneration after heat stress in a *Lentinula edodes* F₂ population
Yingyue Shen, Weiming Cai, Shuohong Zhou, Qunli Jin, Weilin Feng, Lijun Fan, Tingting Song and Liangying Li
- 404 Differential responses of chicory ecotypes exposed to drought stress in relation to enzymatic and non-enzymatic antioxidants as well as ABA concentration
Kimiya Ghanaatiyan and Hossein Sadeghi
- 411 Somatic embryogenesis of *Limonium sinense*: a study on the regeneration efficacy via direct and indirect approach followed by *Agrobacterium*-mediated genetic transformation
Anandamoy Dam, Chayanika Bhattacharya and Tapas K. Bandyopadhyay
- 424 Association of different groups of phytoplasma in flower malformation, phyllody, foliar yellowing, and little leaf disease of rose (*Rosa* sp.)
Madhupriya, Namita Banyal, Raju Dantuluri, V.S., R. Manimekalai, G. P. Rao and S. M. Paul Khurana
- 432 Effect of tree and branch thinning on growth, yield, and fruit quality of persimmon trees in a high-density orchard
Byeong-Sam Kim, Mengmeng Gu, Kyung-Chul Cho, Seok-Kyu Jung and Hyun-Sug Choi
- 439 High-crown grafting to increase low yields in *Camellia oleifera*
C. J. Ruan and S. Mopper
- 445 Statement of Retraction
