

CONTENTS

Research articles

- 363 Comparative response of tall fescue and perennial ryegrass swards to variation in defoliation interval and height
S. Kaufononga, D. J. Donaghy, S. J. Hendriks, C. Matthew, P. D. Kemp and L. M. Cranston
- 376 The effect of time of winter urine deposition on mineral nitrogen leaching and implications for grazed forage crops
M. Shepherd, B. Carlson and G. Lucci
- 386 Traits other than production over lactations and production seasons in dairy cows milked once a day in New Zealand
J. F. Rocha, N. López-Villalobos, J. L. Burke and D. J. Donaghy
- 404 Superphosphate fertiliser application and cadmium accumulation in a pastoral soil
F. M. Kelliher, C. W. Gray and A. D. L. Noble
- 423 Intensification of pastoral systems influences earthworm populations
N. L. Schon, S. Dennis, P. M. Fraser, T. A. White and T. L. Knight
- 437 Efficacy of heat for weed control varies with heat source, tractor speed, weed species and size
C. N. Merfield, J. G. Hampton and S. D. Wratten
- 449 Assessing the environmental implications of applying dairy cow effluent during winter using low rate and low depth application methods
S. Laurenson, R. Monaghan, T. Orchiston and D. Dalley
- 470 Milk production and urinary nitrogen excretion of dairy cows grazing plantain in early and late lactation
L. A. Box, G. R. Edwards and R. H. Bryant
- 483 Potassium requirements of pastures on North Island east coast hill country in New Zealand
J. D. Morton, A. Gillingham and M. Gray
