

PLANT, SOIL AND ENVIRONMENT

Volume 63, No. 8

August 2017

CONTENTS

Šárka E., Dvořáček: Biosynthesis of waxy starch – a review	335
Rutkowska B., Szulc W., Szara E., Skowrońska M., Jadczyż T.: Soil N ₂ O emissions under conventional and reduced tillage methods and maize cultivation	342
Zuo Z.Y., Li X.N., Xu C., Yang J.J., Zhu X.C., Liu S.Q., Song F.B., Liu F.L., Mao H.P.: Responses of barley <i>Albina</i> and <i>Xantha</i> mutants deficient in magnesium chelatase to soil salinity	348
Demková L., Baranová B., Oboňa J., Árvay J., Lošák T.: Assessment of air pollution by toxic elements on petrol stations using moss and lichen bag technique	355
Hniličková H., Hnilička F., Martinková J., Kraus K.: Effects of salt stress on water status, photosynthesis and chlorophyll fluorescence of rocket	362
Valičková V., Hamouzová K., Kolářová M., Soukup J.: Germination responses to water potential in <i>Bromus sterilis</i> L. under different temperatures and light regimes	368
Hniličková H., Hejnák V., Němcová L., Martinková J., Skalický M., Hnilička F., Grieu P.: The effect of freezing temperature on physiological traits in sunflower	375
Wang Y.B., Wei S.Y., Sun Y., Mao W., Dang T.T., Yin W.Q., Wang S.S., Wang X.Z.: Elevated ozone level affects micronutrients bioavailability in soil and their concentrations in wheat tissues	381
