

PLANT, SOIL AND ENVIRONMENT

Volume 63, No. 9

September 2017

CONTENTS

Viljevac Vuletić M., Dugalić K., Mihaljević I., Tomaš V., Vuković D., Zdunić Z., Puškar B., Jurković Z.: Season, location and cultivar influence on bioactive compounds of sour cherry fruits ..	389
Yang J., Du L., Gong W., Sun J., Shi S., Chen B.W.: Application of the chlorophyll fluorescence ratio in evaluation of paddy rice nitrogen status	396
Kuklová M., Hniličková H., Hnilička E., Pivková I., Kukla J.: Toxic elements and energy accumulation in topsoil and plants of spruce ecosystems	402
Andr J., Kočárek M., Jursík M., Fendrychová V., Tichý L.: Effect of adjuvants on the dissipation, efficacy and selectivity of three different pre-emergent sunflower herbicides	409
Peng W.F., Zeng Y.J., Shi Q.H., Huang S.: Responses of rice yield and the fate of fertilizer nitrogen to soil organic carbon	416
Grzebisz W., Čermák P., Rroco E., Szczepaniak W., Potarzycki J., Füleky G.: Potassium impact on nitrogen use efficiency in potato – a case study from the Central-East Europe	422
Křen J., Houšť M., Tvarůžek L., Jergl Z.: Are intensification and winter wheat yield increase efficient?	428
