

Marine Biology Research

Volume 13 - Number 10 - Pages 1015 - 1118 2017

Contents

ORIGINAL ARTICLES

- Oceanographic and lunar forcing affects nearshore larval fish assemblages from temperate rocky reefs
Macarena Díaz-Astudillo, Manuel I. Castillo, Mario A. Cáceres, Guido Plaza and Mauricio F. Landaeta 1015
- Coral reefs in the Southern Barents Sea: habitat description and the effects of bottom fishing
Pål Buhl-Mortensen 1027
- Spatial and short-term variability of larval, post-larval and macrobenthic assemblages associated with subtidal kelp forest ecosystems in Central Chile
Sergio A. Carrasco, Loes Vandecasteele, Marcelo M. Rivadeneira, Miriam Fernández and Alejandro Pérez-Matus 1041
- Fine-scale spatial partitioning of genetic variation and evolutionary contestability in the invasive estuarine mussel *Xenostrobus securis*
Donald J. Colgan 1059
- Population structure and temporal variation of the roughneck shrimp *Rimapenaeus constrictus* (Decapoda: Penaeoidea) in a coastal bay of the Southwestern Atlantic
Wilson Oliveira-Souza and Helena Passeri Lavrado 1073
- The impact of fisheries on vulnerable habitats: the case of trawling on circa-littoral grounds in the Strait of Sicily (central Mediterranean Sea)
Pierpaolo Consoli, Valentina Esposito, Manuela Falautano, Pietro Battaglia, Luca Castriota, Teresa Romeo, Mauro Sinopoli, Pietro Vivona and Franco Andaloro 1084
- Morphology, phylogeny, growth rate and nodularin production of *Nodularia spumigena* from Brazil
Savênia Bonoto da Silveira, Wilson Wasielesky, Ana Paula Dini Andreote, Marli Fatima Fiore and Clarisse Odebrecht 1095
- Larval stages of the crab *Mithrax tortugae* (Brachyura: Mithracidae) with comparisons between all species of *Mithrax*
Tatiana Magalhães, Edvanda A. Souza-Carvalho, Renata Biagi, José A. Cuesta and Fernando L. Mantelatto 1108
- BOOK REVIEW 1118
