

ORIGINAL ARTICLES

Comparison of scytalone dehydratase activities between scytalone dehydratase inhibitor-sensitive and inhibitor-resistant *Magnaporthe oryzae* isolates

N. Kimura · H. Fujimoto 525

Incidence of the potato late blight pathogen, *Phytophthora infestans*, in Syria and its mating type

W. Naffaa · S. Ibrahim · T. Abou Alfadil · A. Al-Daoude 533

Fungal seedborne pathogens infecting potato seed tubers from Turkey, 2011–2014

M.E. Göre 539

Morphological and histological aspects of *Solanum tuberosum* plants infested by *Macrosiphum euphorbiae* aphids

H. Samaha 553

Microparticles containing gallic and ellagic acids for the biological control of bacterial diseases of kiwifruit plants

A. Rossetti · A. Mazzaglia · M. Muganu · M. Paolucci · M. Sguizzato · E. Esposito · R. Cortesi · G.M. Balestra 563

DNA microarray-based detection and identification of bacterial and viral pathogens of maize

K. Krawczyk · B. Uszczyńska-Ratajczak · A. Majewska · N. Borodynko-Filas 577

Assessment of resistance to bacterial wilt incited by *Ralstonia solanacearum* in tomato germplasm

M.N. Aslam · T. Mukhtar · M.A. Hussain · M. Raheel 585

Isolation and expression analysis of defensin gene and its promoter from *Brassica juncea*

S. Rawat · S. Ali · N.N.C. Nayankantha · N. Chandrashekar · B. Mitra · A. Grover 591

Genetic diversity and population structure of *Watermelon mosaic virus*

M. Hajizadeh · H. Bahrapour · J. Abdollahzadeh 601

In vitro susceptibility of root-knot nematode populations (*Meloidogyne* spp.) from Crete, Greece to oxamyl and fenamiphos

E.A. Tzortzakakis 611

Occurrence of mixed populations of root-knot nematodes in vegetable greenhouses in Turkey, as determined by PCR screening

Z. Devran · İ. Mistanoglu · T. Özalp 617

The promotion of thiophanate-methyl and tebuconazole for the continuous control of *Glomerella* leaf spot in apple leaves by adding pellouxite as a synergistic reagent

Y. Wang · P. Li · H. Zhen · B. Li 631
