

TRENDS IN FOOD SCIENCE & TECHNOLOGY

SPECIAL ISSUE: FOOD BIOACTIVES: FROM EVIDENCE OF HEALTH BENEFITS TO UNDERSTANDING MECHANISMS

EDITORIAL

- Editorial preface to the TIFS Special Issue on the 1st International Conference on Food Bioactives and Health** by Paul A. Kroon and Paul M. Finglas 191

PAPERS

- Food and plant bioactives for reducing cardiometabolic disease: How does the evidence stack up?** by Arrigo F.G. Cicero and Alessandro Colletti 192
- Omega-3 polyunsaturated fatty acids and brain health: Preclinical evidence for the prevention of neurodegenerative diseases** by Olivier Kerdiles, Sophie Layé and Frédéric Calon 203
- Revisiting the mechanisms of ACE inhibitory peptides from food proteins** by Jianping Wu, Wang Liao and Chibuike C. Udenigwe 214
- Novel strategies for improving dietary exposure assessment: Multiple-data fusion is a more accurate measure than the traditional single-biomarker approach** by Mar Garcia-Aloy, Montserrat Rabassa, Patricia Casas-Agustench, Nicole Hidalgo-Liberona, Rafael Llorach and Cristina Andres-Lacueva 220

(contents continued)

The importance of studying cell metabolism when testing the bioactivity of phenolic compounds by Gerard Aragonès, Francesca Danesi, Daniele Del Rio and Pedro Mena	230
The cardiovascular health benefits of apples: Whole fruit vs. isolated compounds by Nicola P. Bondonno, Catherine P. Bondonno, Natalie C. Ward, Jonathan M. Hodgson and Kevin D. Croft	243
KEAP1 and done? Targeting the NRF2 pathway with sulforaphane by Albena T. Dinkova-Kostova, Jed W. Fahey, Rumen V. Kostov and Thomas W. Kensler	257
Overview of carotenoid bioavailability determinants: From dietary factors to host genetic variations by Charles Desmarchelier and Patrick Borel	270
Non-extractable polyphenols produce gut microbiota metabolites that persist in circulation and show anti-inflammatory and free radical-scavenging effects by Antonio González-Sarrías, Juan Carlos Espín and Francisco A. Tomás-Barberán	281
Strategies for the discovery and identification of food protein-derived biologically active peptides by Alice B. Nongonierma and Richard J. FitzGerald	289
Challenges in the quantitation of naturally generated bioactive peptides in processed meats by Leticia Mora, Marta Gallego, Milagro Reig and Fidel Toldrá	306
Health claims made on food in the EU: The edge between scientific knowledge and regulatory requirements by Silvia Valtueña Martínez and Alfonso Siani	315
Development of functional agricultural products and use of a new health claim system in Japan by Mari Maeda-Yamamoto	324
