

CONTENTS

Articles

- Antagonistic assessment of *Trichoderma* spp. by producing volatile and non-volatile compounds against different fungal pathogens
Mukesh Meena, Prashant Swapnil, Andlueb Zehra, Manish Kumar Dubey and R. S. Upadhyay 629
- Induction of resistance in tomato against *Xanthomonas perforans* by lipopolysaccharides of the pathogen
Ali Safaie Farahani and S. Mohsen Taghavi 649
- Repellent and toxic properties of plant oils and extracts on *Cydalima perspectalis* Walker (Lepidoptera: Crambidae)
Stefanie Göttig, Stefanie Korn and Annette Herz 658
- Phytoplasmas of sesame and *Orosius orientalis* are genetically diverse based on 16S rDNA sequencing and PCR-RFLP in Turkey
Zahide Özdemir 674
- Isolation and characterization of basil mosaic virus in Egypt
E. M. Marei and M. Magdy 687
- Study of plant parasitic nematodes associated with faba bean in Khuzestan province, southwestern Iran
Sedighe Azimi 700
- Genome comparison and primer design for detection of *Tamarillo leaf malformation virus* (TaLMV)
Mateo Duque Villegas, Mauricio Marín Montoya and Pablo A. Gutiérrez 713
- Antifungal and growth-promoting activity of *Azospirillum brasilense* in *Zea mays* L. ssp. *mexicana*
Lucía López-Reyes, Moisés G. Carcaño-Montiel, Tapia-López Lilia, Guadalupe Medina-de la Rosa and Tapia-Hernández Refugio Armando 727
- Comparing formulations for a mixed-microbial biopesticide with *Bacillus thuringiensis* var. *kurstaki* and *Beauveria bassiana* blastospores
Atef M. M. Sayed and Robert W. Behle 745
- Identification of phytoplasmas associated with sesame phyllody disease in southeastern Iran
Susan Asghari Tazehkand, Akbar Hosseini-pour, Jahangir Heydamejad, Heshmat Rahimian and Hossain Massumi 761
- Plant-parasitic nematodes associated with organic and conventional vegetable farms in Laguna Province, Philippines
Maria Lima D. Pascual, Antone Kris R. Lim and Christian Joseph R. Cumagun 776
- Genetic diversity of soft rot strains of *Pectobacterium*, isolated from different hosts, using ISSR marker
Negin Akramipour, Mohammad Abdollahi, Seyed Mohsen Taghavi and Rasool Rezaei 789
- Bioefficacy of root extracts of a medicinal plant, *Withania somnifera* (Dunal) against a polyphagous pest, *Spodoptera litura* (Fabricius) (Lepidoptera: Noctuidae)
Sandeep Kumar Gaur and Krishna Kumar 802
- Incidence of *Aspergillus flavus* in roasted and raw groundnuts from supermarkets and other vendors in Pietermaritzburg, South Africa and its management using biological control agents
Kwasi Sackey Yobo, Phiwokuhle Mazibuko, Reshika Kallideen and Mark Delmege Laing 815
- Detection and molecular characterisation of *Potato virus S* of weed reservoirs in Iran
Seyyedeh Atefeh Hosseini and Khadije Salari 828
