

- 1 Field study on heavy metal removal in a natural wetland receiving municipal sewage discharge
C. S. Shibambu et al.
- 11 Development of a novel deammonification process for cost effective separate centrate and main plant nitrogen removal
R. Sharp et al.
- 22 Alert system in the case of excess withdrawal or rise up of groundwater in the sensitive areas: the installation of the ALICE system in the vineyard of El Huaico, Pedernal, Argentina
Z. Boukalová & Z. Křivánek
- 30 A deviation from standard quality approach for characterisation of surface water quality
A. Mukherjee et al.
- 42 Wastewater treatment by constructed wetlands with *Thalia geniculata* and *Paspalum paniculatum* in a tropical system of Mexico
E.C. Jiménez-López et al.
- 51 Using benthic macro invertebrates to assess water quality in 15 watersheds in the Pacific Northwest, USA
R.L. Mahler & M.E. Barber
- 61 New advanced technology devices for operational oceanography in extreme conditions
G. Zappalà et al.
- 71 Introduction of ISO management systems in municipal enterprises providing water supply, water preparation and wastewater treatment in the major cities of the Russian federation
I. Rukavishnikova et al.
- 79 Optimization of pump operations in a complex water supply network: new genetic algorithm frameworks
D. de Wrachien et al.
- 89 Pressure management by combining pressure reducing valves and pumps as turbines for water loss reduction and energy recovery
S. Parra & S. Krause
- 98 Pollution-based model predictive control of combined sewer networks, considering uncertainty propagation
Mahmood Mahmoodian et al.
- 112 SunRise: large scale demonstrator of the Smart Water System
E. Farah et al.
- 122 A decision support model for the optimal siting and sizing of storage units in stormwater drainage systems
M.C. Cunha et al.
- 133 Interaction between storm water conduit and surface flow for urban flood inundation modelling
J. Hakiel & M. Szydlowski
- 144 On the efficiency of stormwater detention tanks in pollutant removal
A. Raimondi & G. Becciu
- 155 Climate change impacts on urban stormwater best management practices
Zubayed Rakib et al.
- 165 Flood inundation mapping along the proposed dike system of the Cagayan de Oro river: the Sendong scale flood
D.S. Lo et al.
- 176 Influence of underground structures and infrastructures on the groundwater level in the urban area of Milan, Italy
L. Colombo et al.
- 185 Estimating groundwater and rainfall infiltration into sewerage
S.A. Neshaei et al.
- 194 Reliability and efficiency of rainwater harvesting systems under different climatic and operational scenarios
N. Ursino & A. Grisi
