Contents

Evolution, Phylogeny, and Biogeography

Both landscape and local scale factors matter for the parental investment strategies of the pollinator *Osmia caerulescens*

Natalia Rosas-Ramos, Laura Baños-Picón, Estefanía Tobajas, José Tormos and Josep D Asís

1

Hive Product Science

Mold/aflatoxin contamination of honey bee collected pollen from different Serbian regions

Aleksandar Ž Kostić, Tanja S Petrović, Vesna S Krnjaja, Nebojša M Nedić, Živoslav Lj Tešić, Dušanka M Milojković-Opsenica, Miroljub B Barać, Slađana P Stanojević and Mirjana B Pešić

13

Phenolic composition and antioxidant activity assessment of southeastern and south Brazilian propolis

Joana Coelho, Soraia I Falcão, Nuno Vale, Ligia B Almeida-Muradian and Miguel Vilas-Boas

21

Chemical and genetic similarity between *Dalbergia ecastaphyllum* and red propolis from the Northeastern Brazil

Lucyana Mendonça-Melo, Everton Mota, Begoña Lopez, Alexandra Sawaya, Lisiane Freitas, Sona Jain, Marcus Batista and Edilson Araújo

32

Antioxidant activities of three stingless bee propolis and green propolis types

Wallance Moreira Pazin, Luciana da Mata Mônaco, Ademilson Espencer Egea Soares, Felipe Galeti Miguel, Andresa Aparecida Berretta and Amando Siuiti Ito

40

Pharmacological actions of extracts of propolis of stingless bees (Meliponini)

Márcia Aparecida Sanches, Ana Maria S Pereira and José Eduardo Serrão

50

Pathology and Parasitology

Two commercial formulations of natural compounds for *Varroa destructor* (Acari: Varroidae) control on Africanized bees under tropical climatic conditions

Sóstenes R Rodríguez-Dehaibes, Violeta T Pardió Sedas, Gonzalo Luna-Olivares and Juan A Villanueva-Jimenez

58

The effect of the 'Bee Gym™' grooming device on *Varroa destructor* mite fall from honey bee (*Apis mellifera*) colonies

Jonathan G Patrick, William Block and Beverley J Glover

63

Powdered sugar shake to monitor and oxalic acid treatments to control varroa mites (*Varroa destructor* Anderson and Trueman) in honey bee (*Apis mellifera*) colonies

Ales Gregorc, Patricia R Knight and John Adamczyk

71

(Continued on inside back cover)

(Continued from outside back cover)

First record of small hive beetle, *Aethina tumida* Murray, in South America

Hasan Al Toufalia, Denise A Alves, Daniela de C Bená, José M S Bento, Natasha S A Iwanicki, Andrew R Cline, James D Ellis and Francis L W Ratnieks

76

Pollination

On the thermal limits for the use of stingless bees as pollinators in commercial greenhouses

Marília Araújo da Silva, Noeide da Silva Ferreira, Vinício Heidi da Silva Teixeira-Souza, Camila Maia-Silva, Francisco de Assis de Oliveira and Michael Hrnčir

81
