

CONTENTS

Articles

- Incidence and diversity of viruses in cowpeas and weeds in the unmanaged farming systems of savanna zones in Nigeria
Olusola Olukemi Odedara and P. Lava Kumar 1
- Response of *Callosobruchus maculatus* (F.) to varying temperature and relative humidity under laboratory conditions
Sylvia Bassey Umoetok Akpassam, Beatrice Ngozi Iloba and Idorenyin Asukwo Udo 13
- The effect of *Bacillus subtilis* producing Surfactin in ROS production and transformation efficiency of tobacco cells
F. Nazari, N. Safaie, B.M. Soltani, M. Shams-Bakhsh and M. Sharifi 24
- Effect of diallyl disulfide on physiological performance of *Ephestia kuehniella* Zeller (Lepidoptera: Pyralidae)
Morteza Shahriari and Najmeh Sahebzadeh 33
- Isolation and identification of cuticular compounds from the mediterranean flour moth, *Ephestia kuehniella* Zeller (Lepidoptera: Pyralidae), their antibacterial activities and biological functions
Mahmoud Mehranian, Reza Farshbaf Pourabad, Nemat Sokhandan Bashir and Alireza Motavalizadehkakhky 47
- First report of leaf spot disease caused by *Phoma eupyrena* Sacc. on *Aloe vera* from Madhya Pradesh, India
Shubhi Avasthi, Ajay Kumar Gautam and Rekha Bhadauria 62
- Association of *Eriophyes dimocarpi* (Acari: Eriophyidae) with longan witches' broom disease in Vietnam
Trinh Xuan Hoat, Mai Van Quan, La Van Hao, Tran Thi Chi, Dang Thi Lan Anh, Pham Van Son, Nguyen Nhu Cuong and Assunta Bertaccini 70
- Alleviation of *Fusarium oxysporum* induced oxidative stress in wheat by *Trichoderma viride*
Subhalaxmi Mohapatra and Bhabatosh Mitra 84
- List of Reviewers** 97
- First report of white stain of apple caused by *Trichothecium kashmeriana* in India
Rafiq Ahmad Dar, Akhila Nand Rai and Imtiyaz Ahmad Shiekh 99
- Biological control of tomato collar rot induced by *Sclerotium rolfsii* using *Trichoderma* species isolated in Bangladesh
Md. Monirul Islam, Delwar M. Hossain, Masanori Nonaka and Naoki Harada 109
- Presence of putative *Cycas necrotic stunt virus* RNAs in Japanese primrose (*Primula sieboldii* E. Morren)
Renorio Pelegrino Gentallan Jr., Daiki Mizuta and Antonio Garcia Lalusin 117
- Fusarium* species associated with Wheat crown and root tissues in the Eastern Iran
M. Besharati Fard, A. Mohammadi and M. Darvishnia 123
- Biological activity of *Hyposidra talaca* nucleopolyhedrovirus against all instar stages of a destructive tea pest *Hyposidra talaca* (Lepidoptera: Geometridae) in India
Soma Dasgupta, Sunil Kumar Pathak and Rakesh Kumar Bhola 134
- Biocontrol of onion white rot by application of *Trichoderma* species formulated on wheat bran powder
I. E. Elshahawy, Nehal Saied, F. Abd-El-Kareem and A. Morsy 150
- Response of rocket salad germplasm (*Eruca* and *Diplotaxis* spp.) to major pathogens causing damping-off, wilting and leaf spot diseases
Catello Pane, Loredana Sigillo, Michele Caputo, Giovanna Serratore, Massimo Zaccardelli and Pasquale Tripodi 167
- Chitinolytic microbes confer *Meloidogyne incognita* resistance and augment secondary metabolites in *Bacopa monnieri* (L.) Pennell
Rupali Gupta, Akanksha Singh, P. V. Ajayakumar and Rakesh Pandey 178
