

Genetics, Animal Genetic Resources and Breeding

Short communication

- Single nucleotide polymorphism of candidate genes in non-descript local goats of Sri Lanka
H.B.P.C. Ariyaratne, H.B.S. Ariyaratne and L.G.S. Lokugalappatti 49

Ruminant Nutrition

Original research articles

- Effect of diets differing in protein concentration (low vs medium) and nitrogen source (urea vs soybean meal) on in vitro rumen fermentation and on performance of finishing Italian Simmental bulls
M. Spanghero, F. Mason, C. Zanfi and A. Nikulina 14
- Milk fat secretion in Holstein dairy cows: Insights from grain type and oil supplement
S. Kargar, G.R. Ghorbani, M. Khorvash, A. Kahyani, S. Karimi-Dehkordi, M. Safahani-Langarudi, V. Fievez and D.J. Schingoethe 36

Behaviour, Health and Welfare

Original research articles

- Health and growth of Finnish beef calves and the relation to acute phase response
L. Seppä-Lassila, U. Eerola, T. Orro, H. Härtel, H. Simojoki, T. Autio, S. Pelkonen and T. Soveri 7

Livestock Farming Systems and Management

Original research articles

- Management routines influencing piglet survival in loose-housed sow herds
E.M. Rosvold, C. Kielland, M. Ocepek, T. Framstad, B. Fredriksen, I. Andersen-Ranberg, G. Næss and I.L. Andersen 1
- Using first and second parity number born alive information to estimate later reproductive performance in sows
T.R. Gruhot, J.A. Calderón Díaz, T.J. Baas and K.J. Stalder 22
- Mapping sustainability in pig farming research using keyword network analysis
K. Schodl, F. Klein and C. Winckler 28
- Automatic classification system for grazing, ruminating and resting behaviour of dairy sheep using a tri-axial accelerometer
V. Giovanetti, M. Decandia, G. Molle, M. Acciaro, M. Mameli, A. Cabiddu, R. Cossu, M.G. Serra, C. Manca, S.P.G. Rassu and C. Dimauro 42
- Treatment of the retained placenta in dairy cows: Comparison of a systematic antibiotics with an oral administered herbal powder based on traditional Chinese veterinary medicine
D. Cui, S. Wang, L. Wang, H. Wang, J. Li, X. Tuo, X. Huang and Y. Liu 55
