**Research Articles**

- Local adaptation in oviposition choice of a specialist herbivore: The cinnabar moth  
*X. Wei, K. Vrieling, P.P.J. Mulder and P.G.L. Klinkhamer* ..... 1
- Changes in arbuscular mycorrhizal fungal communities along a river delta island in northeastern Brazil  
*I.R. da Silva, D.K.A. da Silva, F.A. de Souza, F. Oehl and L.C. Maia* ..... 8
- Settlements as a source for the spread of non-native plants into Central European suburban forests  
*L. Gaggini, H.-P. Rusterholz and B. Baur* ..... 18
- Sexual segregation in foraging giraffe  
*R.P. Mramba, O. Mahenya, A. Siyaya, K.M. Mathisen, H.P. Andreassen and C. Skarpe* ..... 26
- Nuclear DNA contents of *Echinochloa crus-galli* and its Gaussian relationships with environments  
*D.-D. Li, Y.-L. Lu, S.-L. Guo, L.-P. Yin, P. Zhou and Y.-X. Lou* ..... 36
- Arbuscular mycorrhizal fungal community composition associated with *Juniperus brevifolia* in native Azorean forest  
*C.D. Melo, S. Luna, C. Krüger, C. Walker, D. Mendonça, H.M.A.C. Fonseca, M. Jaizme-Vega and A. da Câmara Machado* ..... 48
- A minimum stochastic model evaluating the interplay between population density and drift for species coexistence  
*R.D. Guariento and A. Caliman* ..... 62
- The role of nurse functional types in seedling recruitment dynamics of alternative states in rangelands  
*D.R. López and L. Cavallero* ..... 70
- Scavenging efficiency and red fox abundance in Mediterranean mountains with and without vultures  
*Z. Morales-Reyes, J.A. Sánchez-Zapata, E. Sebastián-González, F. Botella, M. Carrete and M. Moleón* ..... 81
