|--|----|
| Dynamic controlled atmosphere storage suppresses metabolism and enhances volatile concentrations of 'Galaxy' apple harvested at three maturity stages F.R. Thewes, A. Brackmann (Santa Maria, Brazil), R. de Oliveira Anese (Santa Catarina, Brazil), E.S. Bronzatto, E.E. Schultz and R. Wagner (Santa Maria, Brazil) | 1 |
| Radiochromic film dosimetry for UV-C treatments of apple fruit R. Yan, J. Yun (Tianjin, China), J. Gurtler, and X. Fan (Wyndmoor, PA, USA) | 14 |
| Microwave-powered cold plasma treatment for improving microbiological safety of cherry tomato against <i>Salmonella</i> J.H. Kim and S.C. Min (Seoul, Republic of Korea) | 21 |
| Minimum exposure period for dynamic controlled atmospheres to control superficial scald in 'Granny Smith' apples for long distance supply chains A. Mditshwa, O.A. Fawole, F.Vries, K. van der Merwe, E. Crouch and U.L. Opara (Stellenbosch, South Africa) | 27 |
| Water relations in post-harvested torch ginger affected by harvest point and carnauba wax D.G. Mattos, P.D. de oliveira Paiva (Lavras, Brazil), F.C. Nery (São João del-Rei, Brazil), R.P. Vale, M.T. Sarto and I.C.A. Luz (Lavras, Brazil) | 35 |
| An effective method to inspect and classify the bruising degree of apples based on the optical properties S. Zhang, X. Wu, S. Zhang, Q. Cheng and Z. Tan (Wuhan, China) | 44 |
| The combination of ethoxyquin, 1-methylcyclopropene and ethylene treatments controls superficial scald of 'd'Anjou' pears with recovery of ripening capacity after long-term controlled atmosphere storage J. Yu (Hood River, OR, USA and Taian, PR China), and Y. Wang (Hood River, OR, USA) | 53 |
| Broccoli and radish sprouts are safe and rich in bioactive phytochemicals N. Baenas (Espinardo, Spain), I. Gómez-Jodar (Cartagena, Spain), D.A. Moreno, C. García-Viguera (Espinardo, Spain and Murcia, Spain), and P.M. Periago (Cartagena, Spain and Murcia, Spain) | 60 |
| Composition of phenolic compounds in wild apple with multiple resistance mechanisms against postharvest blue mold decay J. Sun (Beltsville, MD, USA), W.J. Janisiewicz, B. Nichols (Kearneysville, KV, USA), W.M. Jurick II and P. Chen (Beltsville, MD, USA) | 68 |
| A metabolomics approach to elucidate apple fruit responses to static and dynamic controlled atmosphere storage S. Brizzolara (Pisa, Italy), C. Santucci, L. Tenori (Firenze, Italy), M. Hertog, B. Nicolai (Leuven, Belgium), S. Stürz, A. Zanella (Bolzano, Italy), and P. Tonutti (Pisa, Italy) | 76 |
| Effect of nitric oxide treatment on chilling injury, antioxidant enzymes and expression of the CmCBF1 and CmCBF3 genes in cold-stored Hami melon (<i>Cucumis melo</i> L.) fruit T. Zhang (Yangling, PR China and Urumqi, PR China), F. Che, H. Zhang, Y. Pan, M. Xu (Urumqi, PR China), Q. Ban, Y. Han and J. Rao (Yangling, PR China) | 88 |
| Effects of UV-B and UV-C combination on phenolic compounds biosynthesis in fresh-cut carrots A.C. Formica-Oliveira, G.B. Martínez-Hernández, V. Díaz-López, F. Artés and F. Artés-Hernández (Cartagena, Spain) | 99 |
