See article in this issue.*

Invited 20th Anniversary Papers

Ecosystem Structure and Dynamics in the North Pacific Subtropical Gyre:
New Views of an Old Ocean

David M. Karl and Matthew J. Church

433

Marine Ecosystems as Complex Adaptive Systems: Emergent Patterns,
Critical Transitions, and Public Goods

George I. Hagstrom and Simon A. Levin

458

A Framework for Evaluating Heterogeneity and Landscape-Level Impacts of
Non-native Aquatic Species

M. Jake Vander Zanden, Gretchen J. A. Hansen, and Alexander W. Latzka

477

Minireview

Productivity and Connectivity in Tropical Riverscapes of Northern Australia:
Ecological Insights for Management

*Neil E. Pettit, Robert J. Naiman, Danielle M. Warfe, Tim D. Jardine,
Michael M. Douglas, Stuart E. Bunn, and Peter M. Davies*

492

Original Articles

Warming Effects on Ecosystem Carbon Fluxes Are Modulated by Plant
Functional Types

*Ji Chen, Yiqi Luo, Jiayang Xia, Kevin R. Wilcox, Junji Cao, Xuhui Zhou, Lifen Jiang,
Shuli Niu, Katerina Y. Estera, Rujin Huang, Feng Wu, Tafeng Hu, Junyi Liang,
Zheng Shi, Jianfen Guo, and Rui-Wu Wang*

515

The Contribution of Photodegradation to Litter Decomposition in Semiarid
Mediterranean Grasslands Depends on its Interaction with Local Humidity
Conditions, Litter Quality and Position

María Almagro, Javier Martínez-López, Fernando T. Maestre, and Ana Rey

527

Primary Production of Lowland Natural Grasslands and Upland Sown
Pastures Across a Narrow Climatic Gradient

Martín Durante, Gervasio Piñeiro, J. Gonzalo N. Irisarri, and Martín Oesterheld

543

Watershed Land Use and Seasonal Variation Constrain the Influence of
Riparian Canopy Cover on Stream Ecosystem Metabolism

Jeremy M. Alberts, Jake J. Beaulieu, and Ishi Buffam

553

Biogeographic Variability in the Value of Mussel Beds as Ecosystem Engineers on South African Rocky Shores <i>Justin A. Lathlean and Christopher D. McQuaid</i>	568
Modeled Effects of Climate Change and Plant Invasion on Watershed Function Across a Steep Tropical Rainfall Gradient <i>Ayron M. Strauch, Christian P. Giardina, Richard A. MacKenzie, Chris Heider, Tom W. Giambelluca, Ed Salminen, and Gregory L. Bruland</i>	583
Flashiness and Flooding of Two Lakes in the Upper Midwest During a Century of Urbanization and Climate Change <i>Jacob Usinowicz, Jiangxiao Qiu, and Amy Kamarainen</i>	601
Role of Avian Seed Dispersers in Tree Recruitment in Woodland Pastures <i>Daniel Martínez and Daniel García</i>	616
Effects of <i>Quercus suber</i> Decline on Woody Plant Regeneration: Potential Implications for Successional Dynamics in Mediterranean Forests <i>Beatriz Ibáñez, Lorena Gómez-Aparicio, José M. Ávila, Ignacio M. Pérez-Ramos, and Teodoro Marañón</i>	630
