

## Contents

- Employing DNA barcoding as taxonomy and conservation tools for fish species censuses at the southeastern Mediterranean, a hot-spot area for biological invasion**  
Arzu Karahan, Jacob Douek, Guy Paz, Nir Stern, Ahmet Erkan Kideys, Lee Shaish, Menachem Goren and Baruch Rinkevich \_\_\_\_\_ 1
- Implications of poor taxonomy in conservation**  
Cleusa Vogel Ely, Sérgio Augusto de Loreto Bordignon, Rafael Trevisan and Ilsi Iob Boldrini \_\_\_\_\_ 10
- Avian electrocution rates associated with density of active small mammal holes and power-pole mitigation: Implications for the conservation of Threatened raptors in Mongolia**  
Andrew Dixon, Md Lutfur Rahman, Batbayar Galtbalt, Amarkhuu Gunga, Batkhuu Sugarsaikhan and Nyambayar Batbayar \_\_\_\_\_ 14
- Dead or alive: The growing importance of shark diving in the Mid-Atlantic region**  
Paulo Torres, Nuno Bolhão, Regina Tristão da Cunha, José António Cabral Vieira and Armindo dos Santos Rodrigues \_\_\_\_\_ 20
- Spatial modelling of congruence of native biodiversity and potential hotspots of forest invasive species (FIS) in central Indian landscape**  
Hitendra Padalia and Utsav Bahuguna \_\_\_\_\_ 29
- Planning connectivity at multiple scales for large mammals in a human-dominated biodiversity hotspot**  
Aditya Gangadharan, Srinivas Vaidyanathan and Colleen Cassady St. Clair \_\_\_\_\_ 38
- The desolation of Smaug: The human-driven decline of the Sungazer lizard (*Smaug giganteus*)**  
Shivan Parusnath, Ian T. Little, Michael J. Cunningham, Raymond Jansen and Graham J. Alexander \_\_\_\_\_ 48
- An example of how to build conservation evidence from case studies: Fire and raking to enhance *Pulsatilla vernalis* populations**  
Anneli Sandström, Brita M. Svensson and Per Milberg \_\_\_\_\_ 58
- Willingness to pay for mitigating human-elephant conflict by residents of Nepal**  
Dinesh Neupane, Samrat Kunwar, Alok K. Bohara, Thomas S. Risch and Ronald L. Johnson \_\_\_\_\_ 65
