

JOURNAL OF THE AMERICAN SOCIETY FOR HORTICULTURAL SCIENCE

VOL. 142, NO. 2

CONTENTS

MARCH 2017

- 71 Implications of the Presence of Maturing Fruit on Carbohydrate and Nitrogen Distribution in Grapevines under Postveraison Water Constraints
Gerhard C. Rossouw, Jason P. Smith, Celia Barril, Alain Deloire, and Bruno P. Holzapfel
- 85 Recurrent Selection for Improved Germination under Water Stress in Russian Dandelion
Katrina J.M. Hodgson-Kratky, Olivier M. Stoffyn, and David J. Wolyn
- 92 Inhibition of Ethylene Biosynthesis and Perception by 1-Methylcyclopropene and Its Consequences on Chlorophyll Catabolism and Storage Quality of 'Bosc' Pears
Xingbin Xie, Congbing Fang, and Yan Wang
- 101 Changes of Antioxidant Defense System and Fatty Acid Composition in Bermudagrass under Chilling Stress
Zhengrong Hu, Erick Amombo, Margaret Mukami Gitau, Aoyue Bi, Huihui Zhu, Liang Zhang, Liang Chen, and Jinmin Fu
- 110 Interactive Short-term Effects of Waterlogging and Salinity Stress on Growth and Carbohydrate, Lipid Peroxidation, and Nutrients in Two Perennial Ryegrass Cultivars
Xiujie Yin, Chao Zhang, Xin Song, and Yiwei Jiang
- 119 Silencing *GhAGPL1* Reduces the Quality and Quantity of Corms and Cormels in *Gladiolus*
Shanshan Seng, Jian Wu, Jiahui Liang, Fengqin Zhang, Qiuyan Yang, Junna He, and Mingfang Yi
- 126 Volatile Compound Profiles of *Malus baccata* and *Malus prunifolia* Wild Apple Fruit
Chunyu Zhang, Xuesen Chen, Hongwei Song, Yinghai Liang, Chenhui Zhao, and Honglian Li
- 135 Polyamine Application Effects on Gibberellic Acid Content in Creeping Bentgrass during Drought Stress
Sanalkumar Krishnan and Emily B. Merewitz
- 143 Development and Characterization of Molecular Markers Associated with Female Plants in Muscadine Grape
Patrick Conner, Joann Conner, Paige Catotti, Jennifer Lewter, John R. Clark, and Luiz A. Biasi
