- Evaluation of maize inbred lines resistance to ear rot disease and fumonisin accumulation in Moghan  
*Mohammadreza Shiri and Laleh Ebrahimi* 197
- Pyramiding *Ty-1/Ty-3* and *Ty-2* in tomato hybrids dramatically inhibits symptom expression and accumulation of tomato yellow leaf curl disease inducing viruses  
*Saeid Tabein, S. Ali Akbar Behjatnia, Luca Laviano, Nicola Pecchioni, Gian Paolo Accotto, Emanuela Noris and Laura Miozzi* 213
- Biocontrol efficacy of *Trichoderma asperellum* MSST against tomato wilting by *Fusarium oxysporum* f. sp. *lycopersici*  
*Stuti Patel and Meenu Saraf* 228
- Mycelial compatibility in *Valsa malicola*, the causal agent of canker disease in Iran  
*Elaheh Seifollahi, Khalil-Berdi Fotouhifar and Mohammad Javan-Nikkhah* 239
- In vitro* assessment of *Fusarium* head blight spp. on wheat cultivars  
*Nachaat Sakr* 254
- Biological effects of active fraction isolated from *Hydnocarpus pentandra* (Bunch. –Ham.) Oken seeds against *Helicoverpa armigera* (Hub.) (Lepidoptera: Noctuidae)  
*Govindan Sivaraman, Michael Gabriel Paulraj, Kedike Balakrishna, Santiago Stephen Irudayaraj, Savarimuthu Ignacimuthu and Naif Abdullah Al-Dhabi* 262
- Optimising microencapsulated formulation stability of *Bacillus thuringiensis* subsp. *kurstaki* (Bt-KD2) against ultraviolet condition using response surface methodology  
*Soodeh Khorramvatan, Rasoul Marzban, Mehdi Ardjmand, Aliakbar Safekordi and Hassan Askary* 275
- Occurrence of *Pythium* and *Phytophthium* species isolated from citrus trees infected with gummosis disease in tunisia  
*Najwa Benfradj, Duccio Migliorini, Nicola Luchi, Alberto Santini and Naima Boughalleb-M'Hamdi* 286
- Effect of hot water treatment on development of anthracnose (*Colletotrichum gloeosporioides*) and quality of mango fruit at Jimma southwest Ethiopia  
*Agurash Seid, Debrie Tasew and Binyam Tsedaley* 303
- Effect on lycopene,  $\beta$ -carotene, ascorbic acid and phenolic content in tomato fruits infected by *Alternaria alternata* and its toxins (TeA, AOH and AME)  
*Mukesh Meena, Andleeb Zehra, Prashant Swapnil, Manish Kumar Dubey, Chandra Bali Patel and R. S. Upadhyay* 317
- Screening of cassava varieties for resistance to root-knot nematodes  
*Ayodele Adesina Adegbite* 330
- RNA silencing suppressor activity of Velvet bean severe mosaic begomovirus DNA-A encoded proteins  
*Aruna Jangid, Vanita Chandel, Yogesh Kumar and Narayan Rishi* 341
- Aflatoxin-producing *Aspergillus* species from saffron field soils in the South Khorasan province of Iran  
*Simin Najjar, Abbas Mohammadi, Bita Asgari and Amir Hossein Mohammadi* 349
- Efficacy of antioxidants on incidence of *Fusarium* root and pod rot diseases in peanut  
*Nashwa M. A. Sallam, Mosherif S. Ahmed, AbdElal A. Mohamed and Mohamed H. A. Hassan* 361
- Systemic resistance induced by *Trichoderma harzianum* and *Glomus mossea* on cucumber damping-off disease caused by *Phytophthora melonis*  
*S. K. Sabbagh, M. Roudini and N. Panjehkeh* 375
- Phenology of Tick weed (*Cleome viscosa* L.) and its interaction with okra (*Abelmoschus esculentus* (L.) Moench) and *Meloidogyne incognita*  
*Happiness Chigozie Okayi, Abiodun Oluwafunmilayo Claudius-Cole and Rasheed Olufemi Awodoyin* 389
- Distribution of *Fusarium* wilt of Bambara nut (*Vigna subterranea* (L.) Verdc.) in farmers' fields' of Busia County in Western Kenya and its management using farmyard manure  
*Cynthia Nafula Wakhungu, Isaiah Masinde Tabu, O. Daniel Otaye and Wafula Victor Wasike* 398
