HEALTH & MANAGEMENT SOCIETY

Aquatic Ecosystem Health & Management

The official journal of the Aquatic Ecosystem Health and Management Society

Volume 20, Numbers 1–2

January–June 2017

CONTENTS

Ecology and Health of Major Rivers of India: Biota, Fisheries and Management

Editorial	1
Preface	4
Ganges river systems	
River Ganges – Historical, cultural and socioeconomic attributes <i>D. Kumar (India)</i>	8
Employing indicators for prioritization of fish assemblage with a view to manage freshwater fish diversity and ecosystem health in the tributaries of Ganges basin, India <i>U. K. Sarkar, V. K. Dubey, S. P. Singh, and A. K. Singh (India)</i>	21
Patterns of fish diversity, community structure and ecological integrity of River Yamuna, India <i>A. P. Sharma, M. K. Das, K. K. Vass, and R. K. Tyagi (India)</i>	30
River ecosystems of the Central Highland ecoregion: Spatial distribution of benthic flora and fauna in the Plateau rivers (tributaries of the Yamuna and Ganga) in Central India <i>P. Nautiyal, A. S. Mishra, J. Verma, and A. Agrawal (India)</i>	43
Status, threats and conservation challenges to key aquatic fauna (Crocodile and Dolphin) in National Chambal Sanctuary, India <i>H. Singh, and R. J. Rao (India)</i>	59
Studies on ecology, fish diversity and fisheries of Ken–Betwa rivers (India): Proposed for inter-linking <i>K. D. Joshi, Md. A. Alam, D. N. Jha, K. Srivastava, S. K. Srivastava, V. Kumar, and A. P. Sharma (India)</i>	71
Diversity and conservation status of freshwater fishes of the major rivers of northeast India <i>W. Vishwanath (India)</i>	86
Fish habitat and fisheries of Brahmaputra River in Assam, India <i>B. K. Bhattacharjya, U. Bhaumik, and A. P. Sharma (India)</i>	102

Taylor & Francis
Taylor & Francis Group

Do the rivers of Chota Nagpur Dry Forests (Jharkhand), Damodar and Subarnarekha differ in biodiversity of aquatic macrozoobenthos, functional feeding groups and biological water quality?	116
<i>H. F. Neseemann, G. Sharma, R. Kumar, A. Sheetal, and S. Roy (India)</i>	
Fisheries of Indian Shad (<i>Tenualosa ilisha</i>) in the Hooghly–Bhagirathi stretch of the Ganga River system	130
<i>U. Bhaumik (India)</i>	
Effect of river connectivity on hydrochemistry, sediment enzyme activity and biotic communities of wetlands	140
<i>Md. Aftabuddin, M. A. Hassan, A. K. Das, B. C. Jha, and A. P. Sharma (India)</i>	
Peninsular river systems	
A case study of the Narmada River system in India with particular reference to the impact of dams on its ecology and fisheries	151
<i>U. Bhaumik, M. K. Mukhopadhyay, N. P. Shrivastava, A. P. Sharma, and S. N. Singh (India)</i>	
Status of the River Krishna: Water quality and riverine environment in relation to fisheries	160
<i>A. K. Das, R. K. Manna, D. S. K. Rao, B. C. Jha, M. Naskar, and A. P. Sharma (India)</i>	
Towards building conservation prioritization strategies for tropical freshwater systems: A case study based on fish assemblages from the Western Ghats, India	175
<i>A. Bhat (India)</i>	
Socioeconomics	
Socioeconomic status of riverine fisher communities in India	188
<i>P. K. Katiha, A. Pandit, A. Ekka, and A. P. Sharma (India)</i>
